\$40,000 Fund Drive Launches Heavy Agenda for Boys' Club

The Newton Boys Club moves into a whirl of activities this week with a number of top priority events included in a crowded agenda. The fund-raising campaign to obtain \$40,000 for the re-

novation of a recently acquired building is underway following an enthusiastic kick-off dinner meeting of the board of directors held at Vallee's Steak House in Chestnut Hill on Tuesday of this week.

National "Boys' Club Week" will be observed at the local club starting next Monday, April 10th and continuing through the 17th.

The Newton Boys Club also will participate in "Boys Day in Government" next

Tuesday, April 11th at exercises to be held at City Hall from 9 A. M. to 11:30 A. M. Members of the club will "take over" municipal positions and will be shown first-hand the workings of a modern city government in its many departments. In cognizance of this event, Mayor Donald L. Gibbs issued an official proclamation designating "Boys' Club Week" in Newton.

Suit Seeks To Halt Sale Of School Site

The Newton Centre Improvement Association has filed a bill in equity in Middlesex Superior Court to prevent sale of the old Mason School property for the erection of a six-story apartment house.

Named in the suit were the City of Newton and Mayor Donald L. Gibbs.

The proposed building with stores on the first floor "would cause more congestion in an already overcrowded area," the Association stated. It added that the biggest need in Newton Centre is more parking, and an 80-family apartment house with first floor business establishments "would add to the problems of the small but unique square."

The Association favors a metered parking area on the site and estimated it would bring in \$12,000 a year. The Association said this "will more than offset any gain the city hopes to make by the large, high-rise apartment block, with all its concomitant headaches of schools for its children, water, trash, police and fire services."

At the request of Mayor Gibbs a hearing will be held at City Hall on Tuesday, April 17, at 7:45 p.m. before the Claims and Rules Committee and the Planning Board.

Officers of the Association are: president, Walter Feinberg; vice president, Ernest Siciliano; secretary, Richard J. Douglass; treasurer, Albert Rochette; and on the committee are: William Bruce, Dr. Sidney Gellis, Walter J. Kreske, Parker Pond.

Two Housing Projects Get Federal Okay

Work on two housing developments for elderly persons in needy circumstances, one in Newton Corner and the other in Newton Centre, will be started in the late summer or early fall, Mayor Donald L. Gibbs declared yesterday. The two projects will contain a total of 98 low-rent apartments.

The Mayor made his estimate after Senator Leverett Saltonstall announced from Washington that the Public Housing Administration will sign a financial aid contract with the Newton Housing Authority to finance 90 per cent of the cost of the developments.

Meanwhile, Mayor Gibbs disclosed that he is considering an urban renewal project in the Newton Corner area in connection with the construction of the toll road

See Newton Tax Rate of \$63.50; Steady Pace Up

Taxpayers' Association Says City Faces Critical Period In 1961 To 1968

An increase of \$3 to \$4 on the 1961 tax rate was predicted today by the Newton Taxpayers' Association which warned that the City is entering a critical, eight-year period of financial adjustment.

The 1960 tax rate was \$59.60, or \$4.60 above the 1959 rate.

"The adoption of the City's 1961 budget at about \$21.85 million begins to make the pattern more certain," the Association declared.

"The new level of proposed expenditure is \$1.64 million higher than last year's budget and \$1.83 million more than actual 1960 budget spending."

Members of the Board of Aldermen at a five hour session last week adopted the record-breaking budget after slashing \$425,413 from the budget submitted by Mayor Donald L. Gibbs. The adopted budget represented an increase of \$1,644,000 over the 1960 budget.

Earlier, the Mayor had cut \$1,125,478 from the budget requests submitted by heads of various city departments.

"Newton has entered its 'critical period' of a steady and rather rapid rise in its tax rates," the Taxpayers' Association asserted.

"New school population projections now advance the date of peak enrollments. The result is to advance the peak date of the critical period and give the city even less time to adjust."

See Further Rise
In City Tax Rate

"Our present estimate is that in this period (1961-68), falling major changes in federal or state aid to municipalities, Newton's tax rates will rise from the present level of about \$60 by \$10-\$20, an increase of up to 20 percent on the hundred scale or 30 percent of the present tax rate," the association warned.

The statement declared that the principal control and channeling factor will be the administration of zoning.

"To channel new Newton investment into regenerating older areas or onto rough land ill-suited for single-family construction is about the only way Newtonians have a chance to eat their suburban residential cake and have it more palatable financially, too," the Taxpayers Association said.

"And the costs involved will not be measured in financial terms alone."

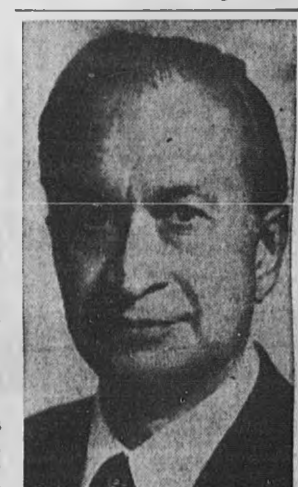

In a study of the present financial situation in Newton, the association said the surplus available will be between \$1.2 million and \$1.5 million.

"If past practice is continued," the association stated, "about one half million dollars will be re-

tained for contingencies and emergencies, with \$900,000 or \$1 million being used to benefit the tax rate. Last year \$900,000 was so used.

"Though unemployment became critical in some Massa-

Auburndale Society Meeting Tonight To Oppose Development

The Auburndale Village Improvement Society, at the annual meeting to be held tonight, Thursday, April 6th, at the Williams School, will spotlight the controversial Norumbega Park question, according to an announcement from the society today.

A spokesman for the society pointed out that a proposed development in the area holds serious implications for the entire city of Newton as well as for the Auburndale section.

The statement from the society went on to point out reasons why the development should not be allowed as follows:

"The six skyscraper apartments planned for this ambitious project would each be twenty-one stories high. As a basis for comparison: the John Hancock, Boston's tallest building, is twenty-six stories high including the tower. These six buildings would house 700 families, a number equal to twenty percent of the present population of Auburndale. In addition to the apartment

buildings, six 6-story office buildings would be located along Commonwealth Avenue and it is further proposed to locate a 200-room hotel on the banks of the Charles River opposite the wild bird sanctuary. Parking is to be provided for two thousand cars.

"Many Newton residents believe that the increased traffic volume from this development would necessitate the rebuilding of Commonwealth Avenue into a five-lane highway with the result that the handsome tree-shaded center strip would be reduced to a mere dividing line.

"It is also probable that construction of this type will interfere with television and radio reception, especially FM and short-wave."

Young GOP Club Charter Is Presented At Meeting

Philip K. Allen, recently elected chairman of the Re-

publican State Committee, was the guest speaker at the recent meeting of the Newton Republican City Committee held at the Newton Highlands Workshop. More than eighty members attended.

A feature of the evening was the presentation by Chairman Allen of a charter to the recently organized Young Republican Club in Newton. The charter was accepted by Harvey L. Alford, vice president of the club.

The following appointments to the executive committee were announced by Carleton P. Merrill, chairman of the Newton Republican City Committee:

Head of Firemen's Union Raps Board of Aldermen

A charge that a majority of the members of the Board of Aldermen have been unfair to the city's firefighters and have broken faith with them, was made yesterday by President Thomas J. Kelly of the Newton Firefighters' Local. Kelly is the spokesman for 230 uniformed members of the fire department.

Kelly said that last fall, when the firefighters placed a pay raise referendum on the election ballot, they were criticized by members of the Board of Aldermen for violating the principle of home rule by going over the heads of their elected city officials.

The Aldermen also accused the firefighters of being unwilling to await the outcome of a salary survey being made for the city by an expert management consultant at a cost of \$6000, Kelly recalled.

"The survey was completed, submitted to the Mayor and accepted and approved by him," the spokesman for the firefighters declared, pointing out that it called for a \$300-a-year raise for the firefighters

this year and a \$200 boost next year, as well as upward adjustments in the compensation of virtually all other city employees.

Recent Disclosures on MTA Make Gov. Volpe Look Good

By JAMES G. COLBERT

While Governor Volpe appears destined to lose his fight for the reorganization of the MTA, he has gained some public support as a result of information which has leaked out recently concerning the deficit-ridden transit system.

Disclosure that MTA General Manager Thomas J. McLernon has a clause in his contract under which he would get \$200,000 over a 10-year period if he were fired caused many people to sit up in surprise.

The revelation that the chairman of the MTA board of trustees has three relatives on the system's payroll must have left a few red faces among those who are battling the Governor's proposal.

It also is pretty well known in political circles that some persons who were not needed were placed in high-salaried MTA jobs during the closing stages of the Furcolo administration, despite the fact that the system is being operated at a staggering loss.

McLernon, who may know how to run a railroad but has some strange ideas on how to get along with the men working for him, also has played at times into the hands of those who would like to give him the axe.

Volpe's critics probably are right when they maintain that he didn't take the right approach to

Newton High Host For N.E. Drama Festival

The students and faculty of Newton High School will welcome one hundred and forty-four drama-minded students from schools throughout the New England area to Newton on Friday, April 28 and Saturday, April 29.

These guests of Newton families are the participants in the 1961 New England Drama Festival.

Festival events including a

dance, a banquet, a drama exhibit and play rehearsals and performances will take place at Newton High School during the weekend.

The committee on housing and transportation is now arranging housing for the one-hundred forty-four students. Many houses are still needed.

The students will arrive late Friday afternoon and will remain here Friday and Saturday evenings. On both days, hosts will be responsible for transporting the guests to and from the high school two or three times for rehearsals and final performances.

The housing and transportation committee will have information on students who will require special consideration because of religious dietary rules and religious services.

The Drama Festival Committees are planning all phases of the weekend's entertainment. Hosts and hostesses are urged not to plan such entertainment.

Anyone who would like to house a student and has not yet made the arrangements may call Newton High School, Woodward 9-9810, Extension 339 in the morning and speak with either Henry Bissex or Miss Holly Lee, teachers in charge of the Housing and Transportation Committee.

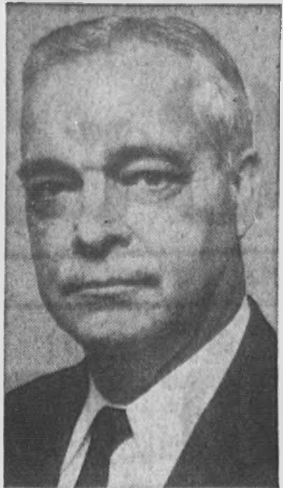

Oppose Graduated State Income Tax

All four Newton members of the House of Representatives voted against the proposed constitutional amendment which would allow the enactment of a graduated State income tax. The measure, which has been approved by two Legislatures, will go on the ballot in next year's State election for acceptance or rejection by the voters. It is expected to be a hot campaign issue since experts say the graduated plan would force persons in the middle income brackets to pay higher taxes.

Minister Honored Tonight Following African Mission

Dr. John A. Reuling of West Newton, secretary for Africa of the American Board of Commissioners for Foreign Missions of the Congregational Christian Churches, will be honored at a special meeting to be held at the First Congregational Church, Waltham, tonight, Thursday, April 6, at 8 o'clock.

The John A. Reuling program at the Waltham church tonight will include an address by Dr. Reuling, a worship service conducted by the Rev. Paul E. Barnes, minister of the host church, and a program by the church choir.

A noted authority on Africa, Dr. Reuling is chairman of the African Committee of the National Council of Churches of Christ in the U.S.A. He served as a missionary in Africa for 14 years before assuming his present post with the Congregational mission board in 1946.

IN AMERICA'S BIGGEST, TOUGHEST 1961 ECONOMY CONTEST...

Which man drove Rambler?

In the most realistic test of all-around gasoline economy ever staged—the NASCAR sanctioned 1961 Pure Oil Economy Trials at Daytona—Rambler won three trophies, held by driver Les Viland in the photo above.

No other make won more than one award... most won none.

Unlike other runs that put a premium on feather-footed driving, the Pure Oil Economy Trials closely parallel your own everyday driving experience.

Every U.S.-built production car is eligible. None are arbitrarily barred, as in some runs. In 1961, 145 cars representing all 5 U.S. makers competed.

Rambler American Custom with overdrive beat them all to win the cherished Overall Winner Trophy and captured the Class 6 trophy in competition with Falcon, Corvair, Lark and Tempest 4. In fact, it took the first 6 places and 8 of the first 10.

And Ambassador V-8 by Rambler won its Class, swept the first 8 places and 9 of the first 10 spots.

With speeds up to 65, and averaging more than 40 M.P.H., the winning Rambler American made 14 complete stops, shifted through the gears 15 times while circling the 3.7 mile course, and still averaged 26.86 miles per gallon!

This is the second straight year Rambler won the Pure Oil Economy Trials.

Want more proof of Rambler value? Then see your Rambler dealer. You'll find top gas economy is just part of your savings. Rambler costs less to buy, is voted most trouble-free by owners, has top resale value.

Rambler dealers sell twice as many compact cars per dealer as most other dealer groups. So, you get a better deal... on the best of the compacts. Rambler—world standard of compact car excellence.

SEE YOUR RAMBLER DEALER—Drive the Recognized Economy King!

THINKING ABOUT HOME OWNERSHIP?

There's a lot to consider when you build or buy... which is the reason why so many people call on Newton Savings Bank for their financing. After all... there's nothing like the assurance of

knowing that many years of home financing know-how went into your plans. Thousands of people must agree... because they make Newton Savings Bank their headquarters for home financing.

payers except those in the school department.
"Mayor Donald L. Gibbs submitted the survey recommendations to the Board of Aldermen and urged that they be adopted and put into effect," Kelly continued.

"Yet, the Aldermanic Board by a 14-9 vote, on the counsel of a majority of the finance committee members and over the Mayor's objection, slashed the recommendation for the firefighters by 60 per cent," Kelly asserted. (The Aldermen voted a \$200 raise for the firefighters for this year but made no commitment for 1962.)

Kelly declared that 20 years ago the wage schedule set by Newton for its firefighters was the sixth highest in Massachusetts. Since then it has dropped down to 26th place, he added. "The explanation is the parsimonious attitude of a majority of the present and former members of the Board of Aldermen," Kelly alleged.

Missions School To Be Held Here

The First Baptist Church in Newton will present a School of Missions on April 9 and 10. On Sunday, April 9, the congregation of the First Baptist Church of Bellingham will join the members of the First Baptist Church in Newton to hear Dr. Charles Boddie, personnel secretary of the American Baptist Foreign Mission Society, who will discuss "Our Contemporary Foreign Mission Program."

Dr. H. Nell Richardson of Boston University will be the featured speaker on April 10. He will give a lecture illustrated with slides on "Life in Palestine — The Arab and Jewish Points of View."

Both sessions will be held at 6:45 P.M. in the church sanctuary at the corner of Beacon and Centre Streets, Newton Centre. The public is cordially invited to attend.

chusetts areas in 1960. the year as a whole was one of high incomes. Hence the city will benefit by about \$225,000 more than last year in its net position vis-a-vis the state and other governments. Also, new property and revaluation are running about normal — to produce about \$275,000 more than last year."

School Department Costs Are Higher

The Association pointed out that it has been exploring policies which might be acceptable to the city and school administrations, possibly leading to an overall decision for tax stabilization. The School Department's operations are \$12 million higher this year, exclusive of construction

costs, the Taxpayers pointed out.

"The nub of the problem, of course, is that any stabilization program at this time would require the imposition of much higher taxes at once and that as both the school and city administrations know, to say nothing of taxpayers generally, people have a strong aversion to turning over to government any more money any sooner than they have to, no matter what," the Association said.

Last year in the Taxpayers' Framework Program,

we tested the acceptability of providing tax stabilization at a higher level earlier — enough higher so that we thought some 'investment' projects could be started sooner.

"It was proposed to do the basic financing through revaluation. A secondary aim was to speed reduction of discrepancies in valuation as well. In any event, the proposal was rejected in so far as it was a financing device.

"So for the present at least, unless our membership wants us to continue the effort, we

will decide that Newton in fact is not interested in paying now for tax stabilization through its 'critical period' of 1961-66 or '68 but prefers to take each year's burden as it comes along."

Civilization on Trial

With the Adolph Eichman trial but a few days away and fully capable of vying for first place among the world's attention from its podium in Israel, humanity everywhere tends to regard its approach as a step toward balancing the scale of man's inhumanity to man. From the aspects, justice will be done in the relative accomplishment of a renewed awareness of the world-wide need to stamp out indifference of this and other sorts wherever it exists.

Famous trials in history, the most notable of which was followed step by step in all its illegality during Holy Week, have given non-participating, yet fully-affected individuals a security that their indifference in times past has been lifted for them, establishing a pathway for conviction and belief.

The Eichman trial will be discussed on every hand and in many places the next few weeks with deep feeling and a high sense of moral indignation that such a "psychological butcher" was permitted to perpetrate the horrors that he and the Nazi high command invested upon the modern world. The cries and prayers of millions of men, women, and children who were shot, beaten, or gassed to death by this armed bully in a vast experiment labeled ignominiously "the solution to the Jewish problem" will be lamented all over again.

Reflecting upon how or why the world and especially Western civilization permitted the Nazi to push their anti-Semitism to such proportions, we note that there was no loud protest either in Germany or elsewhere at the time. This silence was paid for by World War II. It has been charged by some, notably a Unitarian minister of Brooklyn, N. Y., that the trial of Eichman is actually a trial of Christianity. Others have said that the Judo-Christian beliefs of Western Civilization will be on trial. But, Christianity's trial for all times already has been conducted and needs no lesser test of its durability.

It would be a "coup" if viewing the Eichman trial from our various distant vantage points would push individual and collective minds into active protest against current examples of inhuman treatment presently practiced in varying degrees in many sections.

As we propel our interests and attention toward the implications of the Eichman case, searching into the dark crevices of discrimination and subjugation, we should see a relationship and a protest against accepting silence as an acceptable pattern of behavior.

Just as Pilate could not separate himself from the issue by merely washing his hands, we cannot merely condemn Eichman and go our own way.

Nor can we by any comparison measure the life of the Nazi Eichman as balancing the scales against the millions of lives he aided in destroying.

the MTA problem and that he waited too long before making his move. But recent developments have served to strengthen the Governor's position with the public.

Things Are Not Serene In Top GOP Echelons

Everything is not serene and harmonious in the top Republican echelons on Beacon Hill.

That was apparent when Governor Volpe unexpectedly declared at a press conference that he believed the Republican leadership in the Legislature should speak out publicly more often.

If the GOP wheels had been turning smoothly at the State House, Volpe's statement itself would have been enough to throw them out of gear.

What amounted to a rebuke to Senate Minority Leader Fred Lamson and House Minority Leader Frank S. Giles pointed up the dissension and unrest simmering just below the surface in the Republican party.

While Volpe obviously is dissatisfied with the public support given him by the legislative leaders in his own party, good many GOP law-makers, in turn, believe the Governor has been poorly advised on a number of matters.

Volpe's observation came as something of a surprise because until very recently some observers wondered why the Governor himself didn't speak out more often in fighting terms and tones.

They also were puzzled that Volpe, whose political experience is limited, didn't consult Lamson and Giles more often.

They aren't supposed to hold press conferences and issue statements concerning the Governor's program unless he requests them to do so. If they did, they would draw the spotlight away from him.

Their function is to speak out during the debates in the Senate and the House and to lead the fights for the passage of his program in their respective chambers. That is what they have been doing.

Volpe, of course, rode roughshod over the opposition of Lamson and Giles when he had ex-Senator Philip K. Allen of Andover installed as chairman of the Republican State Committee.

It is not generally known, but both Lamson and Giles remained away from the State Committee meeting at which Allen was elected, as did other committee members who follow their leadership.

An example of the kind of mistakes Volpe has been making, which would be avoided if he were being counselled by Lamson and Giles, was provided last week when the Governor threw a cloud of confusion around his own proposal for restoring rail service to the South Shore and Cape Cod.

In that instance the members of the legislative committee on transportation were just sitting down to hold a public hearing on one plan presented by the Governor, when a second plan also landed upon them.

Before the hearing was concluded the situation was in such a muddle that no one could be certain which plan was under

OUR READERS SAY

Praises Mayor Gibbs

March 29, 1961

Editor
The Newton Graphic,
Dear Sir,

It is entirely possible that the courageous stand of Mayor Gibbs of Newton against the devastating extension of the Toll Road through his City may in the future be of great benefit to the several towns and cities and to the Conservation Departments of the several New England States.

For it may give heart to the citizens of those places that later on may be subject to irresponsible and callous destruction by highway builders who, in some cases at least, may seem to think only of the technical and financial aspects of road building, but not of local civic interests and conservation planning.

Win or lose, Mayor Gibbs has put up a splendid fight for his City, and we hope that his example will be of great future benefit to this State and region.

discussion at any particular moment.

Cong. O'Neill May Run For Governor in 1962

Popular Congressman Thomas P. O'Neill, Jr., is a potential Democratic candidate for Governor next year. He definitely will toss his hat into the gubernatorial ring if a stalemate develops between the Democrats and Republicans over the establishment of new congressional districts, forcing all the Congressmen to run in the state-at-large.

O'Neill seriously considered running for Governor last year but finally decided to remain out of the free-for-all scramble for the Democratic nomination. Had he been the Democratic standard-bearer in the gubernatorial race, it is quite possible that he, rather than Governor Volpe, would be directing the State government today, for he would have been a far stronger candidate than was former Secretary of State Joseph D. Ward.

His friendship with MDC Commissioner Robert F. Murphy apparently was the factor which influenced O'Neill to run for reelection to Congress rather than for the Governorship.

O'Neill and Murphy were close personal and political friends over a period of years. When O'Neill was the first Democratic Speaker in the history of Massachusetts, Murphy served under him as Democratic floor leader in the House of Representatives.

Murphy, unsuccessful Democratic nominee for Governor in 1954 and the Lieutenant Governor from 1957 through 1960, was anxious to make another run for the Governorship. O'Neill stepped aside rather than oppose his old friend.

O'Neill, who has steadily gained increased stature and standing in Congress and is a member of the powerful House Rules Committee, apparently would be content to remain in that body if he were able to run for it from a congressional district.

But the indications are that the Democratic Legislature and Republican Governor Volpe will be unable to agree on any plan for creating new congressional districts in Massachusetts.

Volpe would consent to a compromise under which the Democrats and Republicans each would lose one seat in Congress when the number of districts is reduced from 14 to 12. At present there are eight Democrats and six Republicans serving in Congress from Massachusetts. Volpe's proposal, which seems fair, would make the ratio 7 to 5 in favor of the Democrats.

However, Democratic leaders in the Legislature are talking in terms of a bill which would create 10 Democratic and two Republican districts. Volpe, of course, would veto any such measure.

The Democratic chieftains know that Volpe would not accept a redistricting plan under which the Democrats would pick up two seats in Congress and the Republicans would lose four.

The fact is that some prominent Democrats would like to create a situation under which the Congressman would be elected from the state-at-large

YMCA Camping Program Taking Registrations

Three Newton YMCA summer camps are accepting registrations for the coming season, according to William E. Hopkins, chairman of the Youth Work Committee.

Last season nearly 700 boys participated in one or more of the Newton YMCA camping programs. The local association has been operating summer camps for boys for nearly 50 years and YMCA's have been credited with initiating the camping movement.

The camps operated by the Newton YMCA are: Camp Frank A. Day, residence camp in Brookfield, Mass.; Camp Massasoit, day camp at the association building in Newton; and Camp Chickam, day camp in Wayland.

Parents may enroll their sons at the Newton YMCA, 278 Church Street. Applications and brochures will be mailed on request. The Newton YMCA is a member of the Community Chest participating in United Fund.

because it would provide an opening for them to run.

That is what would happen if an impassive develops and no congressional redistricting law is enacted.

O'Neill, it is understood, takes the view that if he is obliged to make a state-wide campaign, he might as well set his sights on the Governorship. He would be a very potent candidate at a convention, in a primary or in an election. Many political experts consider him the best campaigner in either political party in Massachusetts today.

Tigers Bow To Revere 9 to 6

The Newton High School baseball team got off on the wrong foot Monday afternoon at Newton Field when defending GBI League co-champion Revere won a slugfest by a 9 to 6 score.

Each team connected safely for 10 hits in the Greater Boston schoolboy opener, also marked by good mound control as only five bases on balls were issued by the opposing moundsmen.

The second Newton pitcher, Mike Libman, took the loss. Shortstop Don Mason counted three base hits, and second baseman Bruce Marquis had two.

Revere scored six big runs in the third inning and then added three more for insurance in the seventh. The Tigers rallied in the last of the seventh to pick up three runs, to add to their one run in the first and two in the fifth, but the rally was short and too late.

The Newton Board of Aldermen referred to committees for further study petitions for construction of a sewer in Crafts St., Newtonville, from Linwood Ave., Westerly, which was opposed by two abutters, and requests for a main drain on private land east of Cloverdale Rd., and acceptance of Eastham Rd. under the Betterment Act. The latter two were unopposed at public hearings Monday night at City Hall.

Tickets may be procured from the Newton committee members or through the Proparvulus Club, 10 Derne Street, Boston, LA 3-5165 or at the camp.

Merrill Asks Letters On Newton Apartment Zoning

Alderman Carleton P. Merrill fully explained his stand today on the question of apartments for the City of Newton and invited other residents of the Garden City to express their views, pro and con.

He asked that such letters be sent to his home, 15 Newtonville Ave., Newton 58, Mass. "It is possible that there are some sections of Newton which might lend themselves to a careful consideration to the new Zone F without bringing with it the companion problems of decreased valuation, traffic problems and density of population," the Alderman-at-Large from Ward 1 stated.

"When passing judgment on petitions requesting a change, the City officials must not be 'blinded' by anticipated tax returns but must look realistically to all of the facets of good zoning as well as to bear in mind the possible good or bad effects upon the surrounding neighborhood."

Ald. Merrill explained his position:

Due to the appeal that Newton has for many, due to its fine school system, public services and fine residential areas, we have become a prime target for developments which tend to further the use of apartment buildings rather than the type of construction that would be had under our present zones of Residential "A" or Residential "B". More and more we are finding ourselves faced with the decisions that could go a long way in determining the future character of our community.

In making these determinations we must recognize

that zoning is an effective tool for protecting the desirable characteristics of a community and for guiding its future development. Zoning conveys no vested rights to the individual property owner since the interest of the entire community are paramount.

Smaller families and the higher cost of living and construction are some of the factors that have caused many families to seek smaller quarters and rental accommodations. Due to this demand, our present Zone E and Zone F have encouraged petitions requesting either low-density garden apartments or higher-density elevator apartment buildings. Unfortunately, when local authorities allow greater consideration to be given to petitions of this nature rather than to those who have established their homes in the fine residential areas means that the community fails to control open space and population density directly and adequately.

"Citizens and public officials alike should base zoning on the present and anticipated land-use needs of a whole area rather than just a part of an area. If this principle is accepted, then it follows that any change should be made on exactly the same basis. The burden of proof for a future change should rest upon the applicant for that change and if a need can not be fully demonstrated which will benefit the community as a whole, as well as adjacent property and the property involved, then the requested change should be turned down as it is too questionable."

Dr. Brown Stresses Need For Children's Education

"The education of our children is as important as any problem facing the world today," said Dr. Charles E. Brown, Newton superintendent of schools, at the Newton Y.M.C.A.'s 12th annual Lenten luncheon held recently at the association building.

Dr. Brown went on to say that the children of today will be living in an international society and that we should be teaching students not to adapt to society but to improve society. "We must create inquisitive attitudes in students so that the individual may mature and thus his society mature," added Dr. Brown.

The luncheon was sponsored by the Y.M.C.A.'s Christian Emphasis Committee and was presided over by Frederick S. Bacon, chairman of the committee. The invocation was offered by

Newton African Expert Says:

Bored Wives No Help For Yank Technicians Abroad

The indifference of wives and families has been blamed for the failure of many American technicians on overseas assignments for the government, according to a statement this week from Dr. John D. Montgomery, a resident of Newtonville and a staff member of the Boston University African Studies Program.

Dr. Montgomery, director of the Center for Development Research and Training of the African Studies Program at Boston University, returned recently from two months spent in ten African countries.

He has urged the development of a plan whereby the wives of American technicians, as well as their husbands, would be trained before the couple is sent to Africa on International Cooperation Administration missions.

He stated that in his travels, and talks with American technicians abroad, he discovered that many wives are not sufficiently interested in the countries in which their husbands' work.

The Boston University director believes that overall morale could be improved among our overseas governmental personnel if wives were given orientation training before departing with their husbands to overseas posts.

Although this training will not solve all problems, Dr.

JOHN D. MONTGOMERY

Montgomery maintains it will prepare wives for the hardships they will have to face, especially in underdeveloped regions like Africa.

Dr. Montgomery hopes that wives will eventually be invited, under Federal government programs, to attend training lectures at Boston University and other institutions that offer instruction for Americans going overseas.

The ICA program was developed at Boston University in 1959 to assist personnel, who will be assigned to Africa, in ascertaining the basic factors involved in African development.

During his African trip, Dr. Montgomery visited Guinea, Mali, Upper Volta, Liberia, Ghana, the Ivory Coast, Sudan, Ethiopia, Egypt, Kenya and Tanganyika.

The Newtonville man will have a book, entitled "Politics of Foreign Aid", published this summer. The book deals with American aid operations in Southeast Asia.

Williamsburg Group Presents Show Saturday

The Operation Williamsburg group will present an original show, "On the Road" at 8 p.m. Saturday (April 8) in the Elliot Church fellowship hall. Refreshments will be served at intermission.

The performance marks the last in a series of projects the young people of the Grace Episcopal, Elliot Congregational and Newton Methodist Churches have had to earn money for a Spring trip to Valley Forge, Gettysburg, Washington, and Williamsburg from April 15-22.

It will be a camping trip emphasizing learning more about our American heritage and participating with various church groups of different religious traditions in various parts of the country. The 36 young people and five adult leaders going on this trip have worked very hard to earn their way, and now look forward to the trip with much anticipation.

The play "On the Road" featured a fashion show, with some of the men participating, a melodrama laid in the days of silent films, songs, skits and a community sing around the campfire.

Those who will be giving their talents to this evening of fun are Jane Anderson, Nancy Anderton, Nancy Appleton, Fred Davis, Alice Diman, Margy Diman, Bill Donald, Faye Douglas, John Draper, Steve Fields, Dick Garon, Ken Gleason, Bruce Gregory, Ted Henry, Dana Hokanson, Jim Horn, John Humphrey, Mark Lothrop, Pam Lovell, Danny McAuliffe, Bruce Marquis, Sidney Marston, John Miller, Linda Morgan, Roger Newall, Susan Powers, Sandy Pratt, Wakeley Purple, Betsy Rich, Phil Ruputz, Jeanne Saindon, Vicki Seeglitz, Barbara Swanton, Jon Taylor, Marion Theller, Linda Titus, Don Vogelzang, Mrs. Constance Newall, Rev. First Drive-In

St. Louis — First drive-in auto service station was believed to be one established in St. Louis in 1905. It was located at the plant of the Automobile Gasoline company in St. Louis.

Dr. Montgomery hopes that wives will eventually be invited, under Federal government programs, to attend training lectures at Boston University and other institutions that offer instruction for Americans going overseas.

MARC A. SLOTNICK

Newton Student Gets Important Post at Harvard

Marc Alan Slotnick, a freshman from Newton, has been named to an important post in the freshman class at Harvard College.

Slotnick is one of ten students elected by a class of 1200 to the Freshman Jubilee Committee. This group is responsible for planning the freshman spring weekend, which this year will include a formal dinner, two dances, a jazz concert by Dave Brubeck, crew races and other sporting events. Apart from his duties on the Jubilee Committee, he is active in the Pre-Law Society and the Harvard Crimson competition. A government major, he also finds time for intramural athletics, particularly football and volleyball. Slotnick graduated from Newton High School in 1960. He was active in high school student government, serving as chairman of the Constitution Committee and a member of the Legal Committee of the Model United Nations. Slotnick intends to go on to law school, perhaps at Harvard, after receiving his degree from the College in 1964. He is the son of Mr. and Mrs. Aaron Slotnick, of 498 Dudley Road, Newton.

Women Voters' Discussion To Highlight Gold Crisis

"What about Gold" is the question the Newton League of Women Voters is raising for discussion at the next series of unit meetings on April 11, 12, and 13.

In the fall of 1959, our balance of payments deficit suddenly rose from about one billion dollars a year to nearly four billion a year, explained Mrs. Henry Gesmer, chairman of the foreign policy committee of the League. Mrs. Gesmer went on to say that the deficit, accompanied by a sharp increase in the outflow of gold from this country, inspired a rash of sensational headlines about the gold drain. The League committee feels that a close look at the hard facts of gold crisis is in order at this time. The March units on foreign policy established the point that a sound United States economy is vital to a sound world economy, and that our monetary policies should be viewed against the background of this interdependence of nations.

Newton League members and friends may attend any of the units scheduled as follows:

Tuesday, April 11, 9:45 A.M. Newton Lower Falls; Leader: Mrs. Proctor Houghton, at the home of Mrs. Joel Leighton, 31 Colgate Road; 7:45 P.M. Newton Highlands; Leader: Mrs. Myron Simon, at the

home of Mrs. Harvey Friedman, 24 Margaret Road, Wednesday, April 12, 9:45 A.M. Newtonville; Leader: Mrs. Leopold Beckwith, at the Library, 345 Walnut Street (Please use Highland Avenue entrance); 7:45 P.M. Oak Hill Park; Leader: Mrs. Bertram Silver, at the home of Mrs. Stanley Trachtenberg, 70 Wiswall Road; 7:45 P.M. Newton Centre; Leader: Mrs. Henry Shor, at the home of Mrs. Milton Hamolsky, 46 Morton Rd. Thursday, April 13, 9:45 A.M. Newton Highlands; Leader: Mrs. Martin Osman, at the home of Mrs. George Rubin, 40 Druid Hill Road; 9:45 A.M. West Newton; Leader: Mrs. Marvin Lewis, at the home of Mrs. James Currens, 222 Prince Street; 7:45 P.M. Waban; Leader: Mrs. Arthur Goldwyn, at the home of Mrs. Harold Isaacs, 92 Varick Road.

Members of the Foreign Policy Committee who are preparing the units are: Mrs. Leopold Beckwith, Mrs. Arthur Burnes, Mrs. Morris Crevoshay, Mrs. Perry Jacobson, Mrs. Haskell Freedman, Mrs. George Goldstein, Mrs. John Locke, Mrs. Lester Radlo, Mrs. Milton Rubin, Mrs. Harold Stein, Mrs. Irving Wecker, and Mrs. Henry Gesmer and Mrs. James Lewis, Co-chairmen.

Weights And Measures Department Is Watchdog For Public in Newton

When the Newton housewife buys a pound of meat, or the Newton motorist buys a gallon of gasoline, they depend on the accuracy of weighing and measuring devices and the merchandising practices of the vendor. There are thousands upon thousands of such transactions going on in all parts of Newton each week, states J. Ellis Bowen, Newton's Sealer of Weights and Measures.

National Weights and Measures Week, March 1st-7th, will be observed nationwide to focus attention upon the importance of weights and measures administration, and to advise the public how it can contribute to its own protection, and in Newton has been so proclaimed by Manager Donald L. Gibbs.

"Most people," Sealer Bowen said, "take for granted the accuracy of weighings and measurements that play so large a part in everything we buy and use. But making sure that these are really correct is the great responsibility of your municipal weights and measures department, in Newton consisting of the Sealer and Robert E. Silver, Deputy Sealer."

"Thousands of inspections are annually conducted in the interests of protecting consumers with relation to net weight and price computations. Weighing and measuring device tests included, in 1960, tests of various scales from prescription balances and market scales to heavy duty vehicle scales, 923 being approved and sealed, 235 of them requiring prior adjustment, and 28 were condemned; 1798 weights were sealed and four condemned; 22 taxi meters were approved and sealed after careful testing; 495 gasoline and fuel oil meters were sealed, 84 being previously adjusted, and four were condemned."

During the past year 6301 packaged items were spot checked throughout the city to see that net weights were as stated and price computations correct. Nearly eight tons of merchandise was involved; 4692 were correct, 739 were underweight and 870 overweight. Inaccuracy either way, over or under involves loss for someone, if overweight the merchant is giving away his means of livelihood, and if underweight the customer is being cheated. It is our responsibility to foster accuracy in the interests of everyone.

There were 8152 other miscellaneous inspections including those related to food package labeling, retests of meters, clinical thermometer inspections, peddlers truck and license inspections were also conducted.

"We know that the public is aware, to some extent, of the importance of accuracy of the market scales and gasoline and fuel oil meters," Sealer Bowen commented, "but we wonder if they realize that in many instances piecework wages depend upon a count made by weight? Those scales fall within our responsibility, and their accuracy or inaccuracy can produce a result skin to a raise or cut in wages."

"We wonder too, if a purchaser is aware when he has medicine prescriptions filled, that the accuracy of quantity of wonder drug ingredients depends upon the accuracy of a balance and tiny weights that we must approve, and that the balance must possess a visible sensitivity upon application of 1/35,000 of a pound?"

Former Newton Teacher Leaves Bequest To B. U.

A former Newton school teacher and native of Lynnfield has bequeathed one-half of her estate to Boston University to be used for loan funds for students aspiring to be teachers.

The late Miss Elizabeth Deans, formerly of Paige street, Newton, left \$6500 to the University's School of Education.

She received a Bachelor of Science degree in 1934 and a Master of Education degree in 1938, both from the School of Education.

She was with the Newton public school system as teacher in the elementary grades and later as guidance counselor for all public schools in Newton for approximately 20 years before joining the United States Marine Corps for three years in 1943.

In 1947 Miss Deans was appointed by the U. S. State Department to help establish schools and libraries in Western Germany. She was employed by the State Department until 1953.

Mr. Bowen concluded with the admonition, "Much depends upon the public whether full weight or measure goes into the homes of this community. Always look for the seal of approval, signed and dated by the Sealer or Deputy Sealer of Weights and Measures on all commercially used weighing or measuring devices, for no such device, without the seal, may be legally used in this Commonwealth. Watch the scale or meter register, compute the total price based upon unit price and quantity. If short weight or measure or other cheating is detected notify your Weights and Measures Department at City Hall immediately. Investigation will be made, and if short weight or measure is evident, suitable action will be taken."

Chief Explains Periods Of Enlistment

Chief Charles A. Nash, recruiting officer in charge of the Navy Recruiting Station in Norwood, this week explained enlistment periods in the U. S. Navy.

Chief Nash said that the periods of enlistment for men 18 to 31 years of age are for four or six years.

"For those men who have reached their 17th birthday but not their 18th, the period of enlistment is up until their 21st birthday," Chief Nash explained. "In the case of a man enlisting on the day before his 18th birthday this year of course would be a three year enlistment. The Navy calls this a minority enlistment and states that it carries with it all the privileges of a four or six year enlistment."

Miss Dean later became supervisor for elementary schools in Reno, Nev., for two years and also served as consultant for all schools in Sacramento, Calif. She died in Reno on August 12, 1957.

"Build Freeway" Says Mayor

Newton Split Over \$35 Million Park Apartment Center

The future of Norumbega Park, a popular Greater Boston recreation center since 1897, appears likely today to become one of the most controversial issues in recent years in Newton following a public hearing on plans for a \$35 million apartment-office-shopping center.

Petitions for rezoning the park area on the banks of the Charles River were taken under advisement by the Planning Board and the Claims and Rules Committee after both sides were heard at a crowded hearing Monday night before the Newton Board of Aldermen. Both groups will report later to the full board.

An overflow crowd estimated between 800 and 1,000 filled the chamber, balcony and hallways during the three hour meeting.

Several members of the Claims and Rules Committee still sought to be heard when Chairman Harry Mann abruptly closed the meeting. Later, six members of the Board of Aldermen said they will file an objection to the proceedings. Alderman Theodore D. Mann said the group objected to the

fact that Peter Kanavos of Newton, head of the Newton Corp. which seeks to construct the development, was not given an opportunity to speak.

Mann said he was joined by Aldermen George L. Hicks, Winslow Auryansen, Adelaide Ball, Harry L. Walen and Franklin Flaschner. Flaschner and Auryansen are members of the Committee.

Newton Educator Wins High National Citation

Dr. Edward M. Landy, Assistant Superintendent for Pupil Personnel Services and Special Education in the Newton Public Schools, was presented the 1961 award for "outstanding leadership" in his field at the annual convention of the American Personnel and Guidance Association held at Denver, Colo.

The award is known as the Nancy C. Wimmer Award in honor of a former leader in the association and is given

in recognition of the development of an outstanding program in guidance within a school system. A yearly study is made to select a nominee. This is the fourth year since the inception of the award but Dr. Landy is only the second person to receive it, since it isn't given unless a worthy recipient is nominated.

American, Foreign Experts To Attend PTA Regional Conclave

An event of vital significance in the field of education will take place in Newton on May 18 when American and foreign experts take part in a regional conference to be held at Newton South High School

under the sponsorship of the Newton Council of Parent-Teachers Associations. It will be titled, "Revolution in Education."

Jerome Grossman, president of the council, pointed

out the appropriate nature of the title in this era of tremendous and controversial changes in education.

The Newton PTA Council is inviting, not only Newton Parents, but PTA members of the surrounding communities of Weston, Wayland, Wellesley, Needham, Natick, Brookline, Lexington, Concord, Waltham, and Watertown to attend.

Mrs. Norma Mintz, program chairman, has received acceptance to lead discussions from distinguished educators from Harvard, M.I.T., Boston University, Brandeis, Columbia, Radcliffe, Newton Junior College, regional School Committees, and school superintendents, as well as representatives from India, Ghana, and Indonesia.

The program has been carefully planned to cover all vital aspects of issues confronting education today. There will be a dinner, addressed by Dr. Charles

Ted Kennedy Question Mark In '62 Democratic Picture

What office will Edward M. (Ted) Kennedy seek next year? Will he set his sights on the Governorship, the Attorney Generalship or a seat in Congress or the U. S. Senate.

Those are questions which politicians ask repeatedly as they ponder their own plans for 1962. The truth is that no one really knows the answer, possibly not even Ted Kennedy himself.

A fairly safe prediction is that he will run for something, for the youngest of the Kennedy brothers shapes up as possibly the best campaigner in the Kennedy family.

In tremendous demand as a speaker, he has been making public appearances in all sections of the State, and he leaves a favorable impression wherever he goes.

A logical assumption is that Ted will launch his public career by running for Congress, just as his oldest and most famous brother did back in 1946. It's just possible, however, that there will be no opening for him to make a congressional bid.

CHAMPION WORKER—Mrs. Joseph Blue, who has contributed over 90 hours to the Newton TB Association during past five months, is presented Certificate of Recognition by J. Ellis Bowen, president of the Association, at Statler-Hilton meeting where Mrs. Blue was a panel participant.

Work Of Volunteers Is Praised At TB Meeting

The value in dollars and cents of the contributions made by volunteer workers in all activities of the nation's tuberculosis associations was stressed at the Christmas Seal Campaign Clinic held recently at the Statler-Hilton Hotel in Boston. The clinic was conducted by the National Tuberculosis Association.

Representing the Newton Association were: Mrs. Joseph Blue, of Chestnut Hill, Mrs. Maud R. Kemp, and Mrs. Arthur Wood, of Newton Corner, all members of the Christmas Seal campaign committee of the Community Club of Newton, and Miss Hilda G. Hope, executive

director of the Newton Association.

Mrs. Blue participated in the panel, "Volunteers Speak." She also was presented a Certificate of Recognition by J. Ellis Bowen, president of the Newton Association, for her outstanding contribution of more than ninety hours to the local association.

The Newton Association is unique in that the volume of volunteer hours come from the Newton Federation of Women's Clubs. Non-affiliated volunteers are welcome but the program has been built on the Federation hours.

Peirce School Blaze Brings Repercussions

The Newton School Committee has received a strong plea for abandonment of third floor facilities at the Horace Mann and the Stearns Schools following the multiple alarm fire on Saturday which caused \$15,000 damage to the old Peirce School on Chestnut St.

The Horace Mann PTA has been pressing for a new school since 1948, and the Stearns School building committee has urged emergency measures to correct alleged fire and safety hazards.

The Horace Mann-Stearns PTA building committee, in a letter to the School Committee dated April 9, charged that overloaded wiring in the old schools is a fire hazard.

"It would be a certain tragedy should anything such as happened yesterday at the old Peirce School take place at either of the schools," said the letter from Mrs. Walter L. Mueller of 137 Lowell Ave., Newtonville, chairman of the combined building committee. The 75-year-old Peirce

Toll Road May Not Yet Be Dead Says Whitmore

A warning that plans for the extension of the toll road through Newton may not be as dead as they seem to be, was sounded last night by ex-Mayor Howard Whitmore, Jr.

Whitmore declared that Turnpike Authority Chairman William F. Callahan and others behind the toll road project may make a sudden move in the Legislature to revive it.

He cautioned persons who are opposed to the project to ally themselves together and be prepared to meet such an endeavor.

The former Newton Mayor also hit out sharply at the alliance between the Massachusetts Turnpike Authority, the Prudential Insurance Company and the Boston & Albany Railroad.

Whitmore said the apparent death of the toll road extension, through Callahan's inability to sell his bonds, was "the greatest victory, not only

Police Probe Malicious Vandalism

Numerous acts of vandalism to automobiles, construction equipment and a private dwelling, most of it caused over the weekend, is being investigated by Newton police.

More than \$300 damage was done to equipment of a Brighton Company parked at the rear of the College of Sacred Heart near Colby road. Windows and gauges were smashed and sand put into the radiator and gas tank.

Other reports of malicious vandalism included snapped radio aerials on cars, slashed tires, slashed convertible tops, a stone thrown through a car windshield and through the window of a private home on Sargent street.

Scholarship For Newton South High

Dr. Donald K. Davidson, principal of Newton South High School, announced today establishment of a \$750 scholarship by the Charles E. Dockser Charitable Foundation of Newton to be awarded to an outstanding senior. It would go to the boy or girl selected by the school scholarship committee and the foundation trustees on the basis of character, leadership, scholarship and financial need.

Mr. Dockser, principal trustee of the foundation, lives at 12 Drumlins Rd., Newton Centre. He is president and chairman of the Board of Trustees of the Garden City Trust Co. Dr. Davidson also announced that the Trust Company has established book prizes to be awarded in science, music, art, literature and languages.

Gibbs Suggests Road Be Built At Once Along Charles River

Mayor Donald L. Gibbs called for the construction of a freeway along the bank of the Charles River immediately after the announcement that Turnpike Authority Chairman William F. Callahan had been unable to sell the necessary bonds to finance the proposed extension of the toll road from Weston through Newton to Boston.

Gibbs said that he will confer with Governor John A. Volpe on the matter in the near future and that he will request ex-Mayor Howard Whitmore, Jr., to join in the conference. Whitmore had predicted Callahan would have trouble floating the \$175 million bond issue.

Expressions of relief from Mayor Gibbs and Newton public leaders and citizens alike greeted the disclosure that plans for extending the toll

road through Newton along the Boston & Albany roadbed apparently are dead.

Beacon Hill observers, however, pointed out that an attempt might be made to revive the proposition by seeking the enactment of a law which would increase the interest rate on the toll road bonds or place the State's credit behind them.

Mayor Delighted
Over Bond Failure

"I'm naturally surprised that he (Callahan) couldn't sell his bonds," Mayor Gibbs told The Graphic. "I'm delighted from Newton's standpoint that he couldn't."

Gibbs waged a prolonged one-man battle against the toll road project, blocking it for a period of months through a petition before the Interstate Commerce Commission which prevented the sale

of the B & A tracks to the Turnpike Authority. He finally agreed to a compromise several weeks ago rather than jeopardize the \$200 million Prudential Centre.

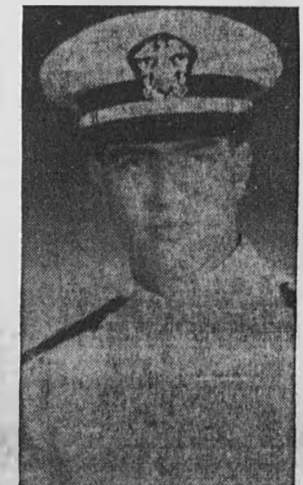

The Mayor fought the toll road project on two grounds:

1. That a freeway rather than a toll road should be constructed.

2. That the expressway should be built over the river route rather than along the B & A right-of-way.

Gibbs said today that where a highway along the B & A right-of-way would result in the demolition of approximately 350 homes and business places assessed for about \$4.5 million, a similar artery along the river route would cause the

ENS. RICHARD MARQUIS

Newton Youth Commissioned Navy Officer

Richard Marquis, son of Mr. and Mrs. Joseph Marquis, 5 Westchester road, Newton, was among the 603 recent graduates of the Officers Training School at the U. S. Naval Base, Newport, R. I.

Following a short visit with his parents in Newton, Ensign Marquis reported to his home base at Long Beach, Cal. He has been assigned to the destroyer, USS DeHaven.

Present orders for the young Newton officer call for duty in and around Long Beach until November when the USS DeHaven will join the fleet in the Western Pacific where Ensign Marquis will spend two years.

He is a graduate of Newton High School and the University of Massachusetts. He is a member of Sigma Phi Epsilon fraternity.

Bumps-a-Daisy With Golf Carts

The thrill of self-propelled golf carts proved too much temptation for two Newton boys, 11 and 12, who were caught by police the other night on the property of the Clapper Co., 1121 Washington street. They had driven the carts around the company yard, and one crashed into a door.

Police turned the 11-year-old boy over to his father and the other was given to the Youth Service Board, charged with breaking and entering in the night-time.

"Have we reached the point where the city needs apartment houses?" queried Feinberg. He then went on to say: "The Board of Assessors, in a report, recently stated that more than 6000 new families have moved into Newton in the years since the war — increasing the assessed value of property in the city by more than \$1,500,000. It would be

grossly unfair to these people — as well as others — to deprive them of the advantages that they sought by choosing Newton for a home.

"Visualize a six story building occupied by 80 tenants — with stores on the ground level — with all the activity it would bring, and it requires no great imagination to see the congestion and confusion it would add to the present crowded condition. It would be chaos."

School Blaze-

(Continued from Page 1)

School has been converted to offices for the Division of Instruction of the Public Schools. The new Peirce School is at 170 Temple St. Fire Chief Frederick A. Perkins Jr. said the blaze apparently started in a ceiling light fixture in a third floor hallway. He credited newly-

installed fire detector devices for saving the old school. On Thursday an undetermined amount of damage was caused by a multiple alarm fire at Barron's Department Store, 991 Watertown St., only some 300 yards from the Peirce School. The State fire marshal's office assisted in the investigation after it was reported that six separate fires were involved.

FINE ARTS COMMITTEE—Members of the Fine Arts Committee of the Newton South High PTA discuss paintings to be exhibited in three-day event. Left to right, seated, Mrs. Harry Shwachman, Mrs. Dominic Taglienti; standing, left to right, Mrs. Irving Gellman, chairman; Mrs. Burnett Pitt, Mrs. Elihu Lewis, Mrs. Philip Baird, and Mrs. Morris Lidman.

Unique Three-Day Art Exhibition To Be Held At South High School

The genius of some of the world's greatest artists, and the works of New Englanders, including four Newton artists, will be displayed at the Newton South High School, in Brandeis road, during the three-day exhibition sponsored by the Parent-Teachers-Students Association of the school, on April 27, 28 and 29. Newton artists exhibiting include Mitchell Seporin, Laurence Kupferman, Ruth Cobb and Dwight Shepler.

Exhibition hours are as follows: April 27th from 7 p.m. to 10 p.m., April 28th, from 3 p.m. to 10 p.m., and April 29th, from 2 p.m. to 10 p.m.

Everything involved in the exciting exhibition of such masters as Picasso, Matisse, Goya, Chagall and Miro, all of them original works, along with creations by rising artists in this region, was done by the P.T.S.A. members themselves.

The festival is actually a unique attempt to put the fine arts into the home. The works on exhibit will be purchasable. Funds raised thereby will go into the P.T.S.A. treasury for further expansion of the school's visual arts program and for other related purposes.

The oil paintings, water colors, etchings, woodcuts, lithographs and sculpture were chosen with the utmost care and deliberation from the riches of Boston and New York galleries by the P.T.S.A. Fine Arts Committee co-chairmen, Mrs. Irving Gellman and Mrs. Harry Shwachman.

Their selections range over broad periods of art and encompass numerous techniques. In their minds, constantly, was the intent to nurture the appreciation of the fine arts so brightly kindled by the school's own art department.

The art department supervised the design of the posters and flyers announcing the exhibition and it assumed the responsibility for displaying the hundreds of individual

works, a task which is an art in itself.

Students drew the posters and lettered them and the invitation cards. The Industrial Arts Department assumed the chore of preparing frames and display stands. Literature relating

to the exhibition was stenciled and mimeographed by the school secretaries. Parents volunteered to oversee the transportation of the art to the school and to write a catalogue listing each work and describing them in informative and perceptive notes.

Headlights and Highlights From Newton High School

By FRANCES WHITTY

Newton High School will be host to the New England Drama Festival the weekend of April 28, "Disraeli," the winner of the NHS Drama Festival earlier this year, will be one of the two plays representing this state in the New England Festival.

"Disraeli" was one of the two winning productions in the State Drama Festival at John Hancock Hall last Saturday. Linda Dahl and Pamela Sappire were selected as members of the All-State cast.

As part of the Student Government Exchange program, NHS student have visited Grafton, Hudson and Canton. Last Monday, student from these high schools visited Newton.

NHS members of the Exchange Committee were Jon Steinberg, Karen Rothstein, Chester Black, Jayne Maloof, David Yoo, Roy Reiss, Annette Kasabian, Danny Wood, Kenny Smith, Sunny Gratto, Karen Secunda, Marsha Katz, David Fox, John Manners, and Bill Goodale.

"Someone has said that urbanization — a apartment building — requires 'mass transportation.' If so, does anyone consider the M.T.A. as presently operated adequate?"

"This question needs mature, deliberate study. Surely the city — as landlord — should not attempt to solve it before it is properly presented to all the citizens of Newton."

Feinberg told The Graphic that the Newton Centre Improvement Association strongly opposes the proposed rezoning, and urged everyone who has the interests of the city at heart to attend Monday's hearing and register a protest.

"We do not want a building stuck in the center of Newton Centre Square which would ultimately strangle the business district, and create 'road blocks' on three main highways: Beacon and Centre Streets, and Langley Road," Feinberg said.

Communion To Be Given Sunday To Men's Group

A Men's Communion and Breakfast will be held at the Newton Highlands Congregational Church, 54 Lincoln Street, next Sunday morning, April 16th at 7 o'clock.

Church officials annually point to this event as one of importance on the church calendar. The deacons are making careful preparations so that it will be an outstanding service for the men and boys of the parish.

The communion and breakfast is not restricted exclusively to members of the Highlands Congregational Church, as friends and neighbors of the church are invited to participate.

EDWARD M. KENNEDY

Edward Kennedy Talks To Cancer Meeting in City

Edward M. "Ted" Kennedy, chairman of the Mass. Cancer Crusade of the American Cancer Society, was the principal speaker at the meeting of Newton volunteers held on Tuesday night, April 11, at the Newton Centre Woman's Club. Plans for the April Crusade were discussed.

Taking part in the meeting were E. Tyler Parkhurst and Police Chief Philip Purcell, co-chairmen of the drive in Newton; William H. Rice, treasurer; Mrs. Philip Levine, house-to-house chairman; Wilfred Chagnon and Joseph A. DeMambro, co-chairmen of special gifts; Martin Aronson and Robert Shaw, co-chairmen of business and industry; John Balkus, chairman of clubs; and Mrs. E. Tyler Parkhurst, publicity chairman. Dr. Gerald G. Garcelon also spoke briefly to the volunteers.

More than 500 captains and crusaders were on hand to greet the personable Ted Kennedy, assistant district attorney of Suffolk County and a brother of President John F. Kennedy.

Mrs. E. Tyler Parkhurst, president of the Newton Centre Woman's Club, was the hostess.

The Cancer Crusade will be climaxed on Tuesday evening, April 25, when volunteers will ring neighborhood doorbells in Newton, and throughout the state.

demolition of fewer than 200 homes and business establishments. He estimated that the property loss would be less than \$2 million and might drop to \$1.2 or \$1.3 million.

"The impact on Newton would be much less severe," Gibbs observed.

Mayor Gibbs asserted that he will urge Governor Volpe to select the river route for the freeway, with an underpass at Watertown Square. Sees Cooperation From Gov. Volpe

"I am sure the Governor will give us consideration, and I am hopeful that the route chosen will be the one least damaging to the city," the Mayor stated.

Under the law a public hearing would be held before a route for a freeway was selected, Gibbs pointed out. A hearing was not required in the case of the toll road.

Meanwhile, the Chamber of Commerce and the Community Council, which have been working out preparations to assist in the relocation of business firms and families, which would have been displaced by the toll road, have stopped their planning until they learn exactly what will be done.

Mayor Gibbs, however, said that he will go forward with tentative plans for revitalizing Newton Corner through a redevelopment project. He said such a project could be carried out irrespective of whether a road is built through the area. The development probably would be increased in size if no road were constructed there, he stated.

Mrs. Mildred Flagg of Newton, was mistress of ceremonies at the annual Committee Carousal and Celebrity Luncheon of the Mass. Teachers Association held recently at the Statler-Hilton Hotel, Boston.

Two Newton residents, C. David Burt of Waban and Howard Levine of Newton Highlands, are members of the world-renowned Bowdoin College Glee Club. The Glee Club boasts 30 Massachusetts students.

Trustees of the Union Savings Bank of Boston have elected Francis P. Brennan of Winchester president. He succeeds the late William B. Carolan.

Mr. Brennan, who is 44, is a trustee of the bank and executive vice president of the Massachusetts Business Development Corporation. He is a graduate of Boston College and the Bentley School of Accounting, has had a varied background in finance as a loan officer, administrator and a financial consultant. A former loan officer of the Reconstruction Finance Corporation, he has been active since 1954 in the development and growth of the Massachusetts Business Development Corporation and its affiliate, the Massachusetts Small Business Investment Company. Under his direction the Business Development Corporation has enjoyed six consecutive profitable years and in 1959 became the first lending operation of this type in the nation to pay a dividend on its common shares.

During World War II, Mr. Brennan served as an instructor in military tactics at Rutgers University and in the European Theatre with the Army Tank Corps.

Park Center-

(Continued from Page 1)

"We came to get all the facts and get a fair appraisal of the question," Mann said. The objection will be filed with President Wendell R. Baukman of the Board of Aldermen.

David W. Jackson, president of the Auburndale Village Improvement Society, headed the nearly dozen speakers opposed to the project. Most of the objectors are abutters or live close to Norumbega Park.

In his outline, Jackson said he objected to a lack of a traffic plan outside the immediate area, said the architectural style does not conform to Newton's present buildings, and he cited a variance in cost estimates.

He said the \$35 million cost estimate given Monday night was \$10 million higher than the figure Mr. Kanavos quoted to his board of directors recently. Mr. Jackson also said a complete revamping of the city's fire protection might result, and added that the city could be placed in a different classification by fire underwriters which could hike fire insurance costs to residents.

"Newton faces a crisis," Mr. Jackson said. "We are besieged with offers from developers. We must plan and control our changes and

growth."

Proponents of the plan presented experts in planning, traffic and utilities to show how the project would aid Newton.

The project would take three years to complete and would include a six-story office building, six 21-story apartment buildings, a recreation area, and a marina on the nearby Charles River.

Atty. Daniel G. Holland of Newton, counsel for the Newton Corp., said the developers were seeking to "correct some of the ambiguities in Newton's zoning laws."

He said the Park now brings in about \$18,000 annually in taxes, and said estimates indicate \$1 million would flow into the city's coffers in tax money from the project. It would in-

crease Newton's real estate values by nearly 10 per cent.

Atty. Holland said Norumbega Park no longer can be operated at a profit. He said the amusement park "no longer exists as we knew it. Its day has passed."

The project won support from Grenfell Swim, president of the Newton Chamber of Commerce.

"Newton is on the rim of a building metropolitan area," he said. "Whether we like it or not, Newton is being drawn nearer to the core of the met-

ropolitan area. I hope the Aldermen will face the issue squarely and without the emotion that crops up when the word 'change' is mentioned."

Only last week the Board of Aldermen unanimously killed a proposal for a \$15 million apartment house complex in a section of the Commonwealth Country Club. The Chestnut Hill Park Associates had planned three 14-story and four 11-story apartments totaling 800 units.

Norumbega Park was

opened in 1897 by the Middlesex and Boston Street Railway after two years of preparation. At that time it included a 1200-seat theatre, a deer park, zoo and a restaurant. Later the open-air theatre was replaced by the Totem Pole Ballroom.

Marcia Helen Wegner of 37 Algonquin Rd., Chestnut Hill, a graduate of Newton High School in June of 1960, is on the Dean's list at Simmons College, Boston.

Political Highlights

(Continued from Page 1)

If the congressional districts were to remain as they are now, Ted Kennedy probably would challenge Congressman Laurence Curtis. That would be an extremely interesting fight since Curtis is one of the most potent vote-getters in the Republican party.

But with Massachusetts losing two seats in Congress, the congressional districts can't remain unchanged, and the possibility of head-to-head battle between Kennedy and Curtis is pretty remote.

If an impasse develops between the Republican Governor and the Democratic Legislature and no congressional redistricting bill is enacted into law, forcing all candidates for Congress to run in the State at large, Kennedy might move into such a contest and would be an extremely strong candidate.

Most observers on Beacon Hill believe that is what will happen. However, Democratic Congressmen, who don't want to wage state-wide campaign to retain their offices, are pressuring Democratic leaders in the Legislature to work out a compromise redistricting bill which would be acceptable to Volpe. How effective their influence will be is uncertain.

Volpe will approve a redistricting plan under which the Democrats and Republicans each would lose a seat in Congress. He will veto a Gerry-mander weighted in favor of the Democrats and against the Republicans.

If a redistricting bill finally is enacted, Kennedy's plans probably would depend on the makeup of the new districts and more specifically on where the Beacon Hill section, in which he lives, winds up in the shuffle.

Candidates for Congress are not required to live in the districts where they run. The late James M. Curley was elected in 1912 and 1914 from a district in which he did not reside. Generally, however, that is not done, and it is doubtful that Ted Kennedy would do it.

If Beacon Hill was added to the district of one of the present Democratic Congressmen, Ted probably would be reluctant to oppose him. So the congressional picture is fraught with uncertainty as far as 1962 is concerned. No one yet knows what the makeup of the new congressional districts will be or, indeed, if there will be any new districts.

Ted Kennedy might run for the seat in the U. S. Senate which his brother held for eight years before ascending to the Presidency. He would be barely old enough since a U. S. Senator must be 30 years old, and Ted will celebrate his 30th birthday in 1962.

He also would face a hard primary and convention fight with Attorney General Edward J. McCormack, Jr., which would split the Democratic party asunder, for McCormack has pretty well committed himself to standing for election to the Senate.

Reports from Washington indicate that the Senate will not be Ted's political objective. Senator Ben Smith of Gloucester, who was appointed to the Senate last fall by ex-Governor Furcolo on the recommendation of President Kennedy, acts like a man who intends to run for the office next year. He obviously would not do so if he thought there was any possibility Ted Kennedy would be in the field.

Some shrewd political observers believe Ted will run for the Governorship. They point out that is one office which his older brother never held.

That is a distinct possibility, and there is little doubt that Ted could have the gubernatorial nomination if he wanted it.

However, the Governorship, with its tremendous headaches

and problems, has proved a political graveyard for many men who planned to move on from it to the U. S. Senate.

In the last three decades the only Massachusetts Governor to go on to the Senate was Leverett Saltonstall, and he did it in wartime. President Kennedy never ran for the Governorship, and Attorney General McCormack has no interest in sitting in the Governor's chair.

Ted Kennedy, of course, may have altogether different ideas, and some persons fairly close to him think he has. He also may want to follow a different political route than that taken by his brother. The very problems and headaches of the Governorship might be a great challenge to him, as they do to some men.

A fourth alternative would be the Attorney Generalship. An opening to seek that office will occur next year when McCormack steps out to make his run for the Senate.

Kennedy is serving as an assistant on the staff of Suffolk County District Attorney Garrett H. Byrne. He is an active courtroom prosecutor, and he obviously is endeavoring to obtain legal experience.

That strengthens the impression that he might be thinking in terms of the Attorney Generalship in the event that no opportunity presents itself to run for Congress.

Whatever contest he enters Ted will be a sturdy contender, and a good many politicians will be waiting anxiously for an announcement of his plans.

Volpe Makes Amends For Hasty Comment

Governor Volpe has tried to make amends to the two top Republican legislative leaders for his ill-advised remark that he wished they would speak out publicly more often.

Volpe made virtually an apology to Senate Republican Leader Fred I. Lamson of Malden and House Republican Leader Frank S. Giles of Methuen when he conferred with them concerning a message he plans to submit calling for a reorganization of the Metropolitan District Commission.

The Governor told Lamson and Giles he didn't intend his comment the way it sounded or read in the newspapers.

He said he was tired at the time he made the remark and that it was an off-the-cuff answer to a question put to him by a newspaper reporter.

Lamson and Giles accepted the apology in good grace but that it isn't customary for legislative leaders in the same party as the Governor to hold press conferences and make statements about his program unless he asks them to do so.

While Volpe has improved somewhat his relationship with the Republican leadership in the Legislature, it still could be a lot better.

Volpe and Council Are Still at Odds

A breach between Republican Governor Volpe and the all-Democratic Executive Council is widening as a result of the steadfast refusal of the latter body to confirm Volpe's appointment of former U. S. Marshal Robert H. Beaudreau of Marlboro as the new State Commissioner of Public Safety.

OUR READERS SAY

Norumbega Developm't

Editor

The Newton Graphic

Monday evening about 1000 persons visited City Hall to sit in on a discussion of a proposed new luxury apartment development for Norumbega Park in Auburndale. We listened to the views of a sincere group of Auburndale residents who opposed the plan and to those who felt that through preservation of dignity in architecture suitable to Newton's high standards, through a masterfully-planned program of landscape gardening, and through a financial structure directed toward purely luxury apartments, the plan could be mutually beneficial to Newton, the new tenants, and prospective investors.

We could not help being emotionally involved with the problems pictured by Mr. David Jackson representing the Auburndale Improvement Society, nor could we close our eyes to the substantial economic benefit to Newton of an enterprise of this scope.

Most of us felt that it was most unfortunate that the Chairman of the Planning Board found it necessary to adjourn the meeting without permitting testimony either by consulting engineers representing the opposition or by Mr. Peter Kanovos who heads the development project, and while several members of the board of Aldermen were seeking recognition from the chair.

All of this is now permanently written into the records, however, and cannot be altered. Before we can pass on the plan, or arrive at a constructive decision, it would seem that we must accept three fundamental premises.

First, that there is nothing more inevitable to Newton or its citizens than change itself. Thus our job is to direct change to our mutual advantage rather than to fight it blindly.

Secondly, that because of its strategic location, Newton constitutes a gateway into metropolitan Boston. Too often we see only the negatives of this geographical situation and fail to take advantage of its favorable aspects as a route for bringing increased business to our merchants.

Since we cannot build a fence around Newton, we must face reality and attempt to turn our location into a priceless asset.

Thirdly, we should recognize that in a time of rapidly increasing costs for the preservation of the high type of city government we have come to expect in Newton, it behooves us to encourage programs which maximize the productive return on properties if such programs can be made commensurate with our desire to preserve Newton as the "Garden City."

Acceptance of these premises would leave us in a position of open-mindedness toward this Norumbega Development. Obviously the several city committees directly involved should attempt to work closely with the professional representatives of the developer. Let us try to find the points of substantial agreement, and go forward from there rather than to slam the door on a project with the potential importance to Newton which this one holds.

When I drive by Norumbega Park I see a much-loved but obviously obsolete "Old Showboat." On the horizon is a "Luxury Liner" carrying a cargo of importance to all of us. Shall we close the harbor to it and allow it to dock elsewhere, or should we dredge out our harbor and permit it to land?

Sincerely yours,
C. Robinson Fish 3rd

On Solons' Vote

Editor,

Newton Graphic:

Every legislator representing Newton. Senators as well Representatives, voted against \$450. Since this was a bill to amend the Constitution, their votes meant that they

Republican House Leader Frank S. Giles of Methuen would like the public safety post, and Volpe has been told that if he were to withdraw Beaudreau's name and nominate Giles instead, the latter's appointment would be swiftly approved.

Volpe, however, is standing firm, and so are a majority of the Councilors, who claim that the Governor is playing politics in seeking to replace J. Henry Goguen with Beaudreau.

The net result of the impasse has been that Goguen has been held over as head of the State police much longer than anyone expected he would. How the stalemate will end is uncertain. Volpe recently tried talking to the Councilors individually but still couldn't muster the necessary votes to put Beaudreau's appointment across.

Church Chuckles by CARTWRIGHT

"Here's the acid test for our whole Christian education program."

were not willing to let the people decide whether or not this was a good bill. On a Constitutional matter, the people have the final say, unless they are thwarted by the refusal of the legislature to let them speak. By refusal the legislature can set itself up as the arbiter of what future legislatures can do.

According to constitutional authorities, good practice writes only basic principles into a constitution, while all means of carrying out the principles are left to be determined by legislatures, according to the needs, conditions and wishes of the electorate of their day. \$450 would remove what is practically the only restriction on the choice of means of taxation contained in the Massachusetts Constitution.

This bill, if approved through the ballot by the people, would only give to the legislatures of 1963 and thereafter the POWER to use graduated rates in income taxes if the legislators so chose. Before this could happen, everyone would have a chance to present views as to whether or not such a course was desirable.

Bills which were almost duplicates of \$450 have been coming to the legislators year after year, and have been turned down, refused the chance to go to the people. Yet they are of high importance, for taxation is one

power absolutely essential to government. Was it not time the question of correcting a deficiency was sent to the people. The majority of the legislators have decided that it was. Why have our legislators tried to prevent the people from having an opportunity to speak? Do they distrust the people?

Library Week In Newton April 16-22

City Librarian A. William Kunkel announced today that National Library Week will be observed in Newton from April 16 to 22.

This marks the fourth nationwide observance of the reading development program designed to increase public appreciation and awareness of the vital role of the printed word and to encourage support and use of libraries.

This year the program for Library Week is being planned with the young reader in mind. Ten Newton junior high school students representing each of five schools will become "librarians for a day" when they take over the operations of departments in the Main Library on Tuesday morning.

Invitations have gone out to elementary schools in Newton encouraging children to exhibit original posters at their local branch library.

Since Library Week coincides with a school recess, story hours will be held in four libraries as part of these observances: Monday, April 17, at 2 p.m. in the Auburndale Branch Library; Tuesday, in the Nonantum Branch at 2 p.m.; Thursday in the Boys' and Girls' Library on Vernon street at 10 a.m.; Friday in the West Newton Branch at 10:30 a.m.

The Paramount Theater in Newton Corner and the West Newton Theater will cooperate in these observances by showing a short animated film on reading and libraries during National Library Week.

Wins Citation-

(Continued from Page 1)

In addition to the honor in the award itself, it brings with it a check for \$1,000. The Newton school system receives a plaque which sets forth the reasons for selecting Dr. Landy and the Newton Public Schools as leaders in the nation in the field of guidance.

The plaque will be presented to the School Committee by the executive director of the association in the near future.

The scroll which was presented to Dr. Landy in Denver on March 28, reads as follows:

"For outstanding leadership in obtaining the community support necessary for an effective cooperative relationship between the Public Schools of Newton, Massachusetts and Graduate Schools of the Greater Boston area, for exemplary practices in supervised field work for graduate students in Guidance and Personnel Work and other related disciplines, for providing stimulation in the development of sound research projects, and for unusual initiative and dynamic leadership in strengthening the program of pupil personnel services in The Newton Public Schools."

In accepting the award, Dr. Landy told the association members — "This award really reflects the excellent support which our guidance work has had from the school administration, the school committee, and from our community. Without this, little, if any of the work we are doing could have been accomplished."

Rep. Whittemore Calls For Action On School Needs

Representative John W. Whittemore this week called for "immediate action" to meet elementary school needs on the north side of the city.

He declared that continued use of the Horace Mann and Stearns Schools, without positive plans for repairs and for an early replacement of the Mann School, would constitute a hazard to the safety of the children and their teachers.

Whittemore commented on the "growing concern" expressed by parents as well as civic and business groups over the "inadequacies of the older public grade schools in Newton."

"I have discussed the Horace Mann and Stearns School situations with the many parents who, on the combined PTA building committee, are working toward a solution," he stated.

"I feel that the School Committee's stated policy of 'putting a roof over the children's heads' — or taking care of space requirements before replacing older buildings — is unquestionably logical as long as no serious drawbacks result from continued use of the older buildings," the legislator asserted.

"But in the case of the Horace Mann and Stearns buildings, particularly, continued use without positive plans for repair and early replacement does, in fact, constitute what I consider a hazard to the safety of the children and their teachers, and less than sufficient educational facilities," Whittemore continued.

He declared his support of PTA groups and other persons who are insisting that a pressing need exists now and who object to the indefinite postponement of steps to meet that need.

"I, for one, believe that they are right in the position they have taken and that it merits the proper and comprehensive attention of the city — not only for the sake of the children involved, but also for the sake of the extremely high standards for which the Newton school system has long been recognized," Whittemore concluded.

Katharine Gibbs School announces that Sandra Crook, daughter of Mrs. Harriet E. Crook of 191 Waltham street, West Newton, is the recipient of a full-tuition scholarship in its One-Year Secretarial Course. She is a senior at Newton High School, and was among 67 students who took the competitive examination.

for the people of Newton but for all the people of Massachusetts, since the end of World War II when other dictators were liquidated."

"While it appears that the toll road extension from Weston to Boston is dead, we should not forget that these people have monopolized and controlled the building of this highway for nine years and that they may be back at their old stands again trying to push the project through," Whittemore continued.

"Those who are against this project should ally themselves and be ready to meet this threat," Whittemore warned.

The former Mayor said the "false image has been successfully portrayed that the Prudential development is dependent on the turnpike extension."

"This is not true," he exclaimed. "The people only now are beginning to learn the truth which is that the turnpike is dependent on the Prudential project."

"If Boston and the Greater Boston area wish to make real progress, they must give up this conniving, wheeling and dealing attitude which involves not only public officials but private officials as well," ex-Mayor Whittemore stated.

From Beacon Hill came rumors that there is solid ground for Whittemore's belief that the toll road extension is not as dead as some of the newspaper headlines have indicated it to be.

A move reportedly is underway there to place the credit of the Commonwealth behind the Turnpike Authority bonds, enabling Callahan to sell them.

PTA Council Discusses Two Vital Programs

At the board meeting of the Newton P.T.A. Council two programs, sure to arouse great public interest, were discussed last week. The meeting was held on Thursday, April 6, at the old Peirce School with Jerome Grossman presiding.

Mrs. William Farrell discussed plans for the spring conference on "The Revolution in Education" that the Newton P.T.A. Council is sponsoring on May 18 at the Newton South High School. More details on this conference will be found elsewhere in this newspaper.

Donald S. March, supervisor of music education in the Newton school system, gave the audience the news of a summer program of instruction in the arts with an entirely novel and fresh approach. This program will be known as the "Creative Arts Center" and will run from July 10-August 4 at the Newton South High School. It will aim at giving the artistically gifted child an integrated picture of his cultural heritage as well as special training in his chosen field. Since Newton is fortunate in having Boston with its vast and cultural potential within reach, some of the programs will be led by professionals in the field from the entire area and trips to various places of interest are also projected.

Mr. Grossman urged the presidents of the individual school P.T.A.'s to encourage discussion of the Federal Aid to Education Bill of President Kennedy vs. the system now in force of reimbursing communities that have a certain number of children, whose parents work on federal property, in the public schools.

Guests at the meeting included Ray Cook, Supt. of Personnel Newton schools, William Ripley, Alderman and Edward Hawkrige, school committee member.

The Church And Religion In Life To Be Discussed

"Are We Overorganized?" will be the sermon of Dr. Paul Uhlinger at the Newton Methodist Church this Sunday morning, 10:30 a. m. The place of the Church and religion in life will be commented upon.

Newton Highlands and Garden Club Theme of Alaska

The Lord's Prayer in Eskimo as a highlight in the program of "Flowers and Scenery of our 49th State", given by Mr. and Mrs. Robert Cushman recently at the Newton Highlands Garden Club. A large delegation from Waltham Better Gardens Club attended the joint meeting at the Workshop.

Mr. and Mrs. Cushman entertained with color slides of Alaska, showing fjords, permafrost tundra, and wildflowers blossoming in mid-summer. Of special interest were Eskimos of Point Barrow, their folk-dancing and singing to drum accompaniment recorded on tape.

As bread was unknown to them, they use the expression, "give us this day our daily seal meat". Recently a varied food supply is brought in by plane. Children were shown playing with huskie pups on the shore of the Arctic Ocean.

The vice-president, Mrs. Henry W. Nelson, conducted the meeting and read a poem in memory of Warren B. Kennedy. She introduced Mrs. Malcolm W. Hampton and Miss Evelyn Dickey, past presidents of the Waltham Club, and welcomed the Highlands Club president, Mrs. Ross E. Langill who has been convalescing. The speakers were presented by the program chairman, Mrs. Leo A. Handy.

Refreshments were served from a table with a centerpiece of tulips, jonquils, and Dutch iris arranged by Miss Clara Dillaway. On the refreshment committee were, Mrs. Malcolm E. Agnew, Mrs. Clifford W. Rust, Mrs. Joseph Blue, Mrs. Walter B. Fogg, and Mrs. Leo A. Handy. Also from the Waltham Club, Mrs. H. Coryell Rice, Mrs. Joseph T. Snow, Mrs. Jack S. Curtis, Mrs. George B. Percy, and Mrs. George E. Olson.

Fair Housing Group Studies Are Completed

"In no case has the moving of a non-white into a white neighborhood precipitated wholesale selling of other houses," and, "the presence of a non-white family in an otherwise white neighborhood does not appear to have altered the normal course of real estate prices."

These are two out of five findings in a study just completed by the Newton Fair Housing Practices Committee. The purpose of this study, carried out over a two year period, was to discover what, if anything, happens to real estate values when a non-white family moves into an all white neighborhood.

Of the forty or more non-white property owners living in white areas of Newton, twenty who had bought within the last ten years were picked at random for the study. Using only records available to the public, the Committee was able to further conclude that: the non-whites appear to be of congenial occupational status with their neighbors; and, the great majority of non-whites are from the Greater Boston area.

The study was carried on under the direction of Jerome Grossman, president of an envelope company; Dr. Morton Rubin, a sociology professor at Northeastern University; and, Henry Shepard, an attorney-at-law. All are Newton residents.

PTA Conclave (Continued from Page 1)

Brown, Haskell Freedman, and Dean Francis Keppel of Harvard Graduate School of Education.

Following the dinner there will be seven Workshops on these subjects: 1. How should public education be financed? 2. How can we attract, develop, and keep good teachers? 3. Can education bridge the gap between society and the sciences? 4. Changing techniques: Is the method of presentation the key to understanding? 5. Parent-school: what is the parent's role? 6. How can we strengthen the links between elementary, secondary, college, and adult education? 7. How do educational systems function in other countries?

The conference will be open both for dinner and Workshops to people of all Greater Boston Communities. The dinner will be from 6:30 to 8:00 and those wishing to attend only the Workshops may register for them at 8:00 P.M. Further details of the conference will be reported in the coming weeks.

Newton Mother Of Three Author Of Two New Books

MRS. MAXINE KUMIN

A Newton Highlands housewife, in addition to being the mother of three children, a busy community worker, swimming instructor and a member of the faculty of Tufts University, has had not one but two books published in the past two weeks.

Mrs. Maxine W. Kumin, 40 Bradford Rd., has had her first book of serious poetry, "Halfway," published by Holt, Rinehart and Winston.

The first in a series of four children's books in verse, "Spring Things," is also in

publication. These are limited vocabulary books for first and second graders. The next three, "Summer Story," "Follow the Fall," and "A Winter Friend," will be published by Putnam in May, August and November.

From the time some years ago when she began to write light verse, and had her first poem published in "The Christian Science Monitor," Mrs. Kumin has contributed to "Good Housekeeping," "The Saturday Evening Post," and "Better Homes and Gardens."

Since 1953, when she devoted herself to serious poetry, her work has appeared in "The New Yorker," "Harpers," "The Atlantic," "Hudson Review" and "Poetry."

She has been the recipient of many awards and honors for her poetry.

In 1959 Mrs. Kumin received the Poetry Society of America Annual Award for the best poem in an annual competition, and in 1960 was invited to give a reading in the David Steinman Lecture Series at Tufts University.

In 1960 she received the Lowell Mason Palmer Award of the Poetry Society of America in a competition, and in 1961 the title poem of her new book, "Halfway," which originally appeared in "Harpers," was included in the Borestone Mountain Anthology, an annual comprised of best poems published in national magazines during the year.

She has recorded her poetry for the Lamont Library at Harvard University, and for the Library of Congress. Recordings have also been made for broadcast over station WGBH, Boston.

Since 1958 Mrs. Kumin has been an instructor in English at Tufts University, teaching courses in creative writing.

OPENS NEW OFFICE—Stephen P. Mugar, president of the Star Market Company, and William P. Sawyer, president of the Watertown Federal Savings and Loan Association, left to right, at the opening of the new Star Market Bank Office of the Watertown Federal, Mount Auburn Street, Cambridge.

Watertown Federal Savings Opens New Branch Office

The Watertown Federal Savings and Loan Association opened a new branch office in the Mount Auburn Star Market Co., Cambridge, last

Monday, and bank officials termed this an innovation in the thrift business. It is believed to be the only New England financial institution making thrift functions available to a modern super market.

Among the hundreds attending the opening day celebration were Stephen P. Mugar, President of the Star Market Company, and William P. Sawyer, President of the Watertown Federal Savings.

"Watertown Federal is embarking on a new frontier of service for a financial institution . . . In order to serve more people, our Star Market

branch is open 55 hours a week — days, nights and Saturdays," Mr. Sawyer said.

Established in 1888, Watertown Federal provides insurance of accounts through a permanent agency of the United States Government and added protection of federal supervision.

During the month-long celebration, Watertown Federal is offering gifts for thrift and sponsoring an unusual contest.

Homestead Open House On Sunday

Flowers, fruits and birds of the seasons, interpreted by artists of many lands through wood-block printings, line, brush and photography from the 17th century to date will be exhibited at the Jackson Homestead open house on Sunday (April 16) from 3 to 5 p.m. The exhibit was arranged and loaned by Mrs. Olin E. Skinner of Newtonville.

Mannequins have been dressed in lovely old gowns for the occasion, selected from the collection at the Homestead by Miss Lorraine Cotting and Mrs. William F. Greve. Dresses with hoop skirts will be worn by Miss Carolyn Overholt and Miss Deborah Clockman, members of Girl Scout Troop 145, Newtonville, who will help serve punch.

Hostess — members of the West Newton Women's Educational Club will be Mrs. Donald C. Mood, Mrs. Theodore C. Danker, Mrs. John F. Leonard, Mrs. C. David Gordon, Miss Jean Gordon, Miss Mary Ann Lawson, Mrs. Leonard G. Simmons.

There will be spring bouquets in all the rooms arranged by Mrs. Simmons and Mrs. Sidney R. Williamson.

Visitors will be welcomed by the president, Mrs. Malcolm N. Jackson and by Mrs. H. L. Sears, director and curator.

Local Student Heads Harvard Radio Station

Kenneth R. Dana, son of Mr. and Mrs. Robert D. Dana, of 15 Hamlin Road, Newton Centre, a junior at Harvard College, has been elected president of WHRE, Harvard's student owned and operated radio station.

As president, Dana will be in full charge of the station's administration. He is also an ex-officio member of the administrative board and the board of trustees.

He is a 1958 graduate of Phillips Exeter Academy and is majoring in mathematics at Harvard. He also works as a tutor at Fessenden School in West Newton.

Local Singer Featured In Boston Musical

Mrs. Elizabeth McDonald of 704 Centre Street, Newton, has a leading role in "A Musical Showcase," which will be presented by the St. Paul Theatre Guild of Dorchester on April 18, 19 and 20 at John Hancock Hall in Boston at 8:15 P. M.

This is the 13th annual musical presented by the Guild, and this year's Showcase will feature highlights of many recent Broadway musicals. Jess Cain, WHDH radio and TV disc jockey, will be Master of Ceremonies for the show.

Mrs. McDonald will sing selections from "Brigadoon." She studied voice at the New England Conservatory of Music, and has done free lance singing in local night clubs.

YMCA Adult Classes Off To Good Start for Spring

The spring term of adult classes at the Newton Y.M.C.A. began April 7 with the start of the third semester of ballroom dancing for couples (singletons may register with the possibility of being paired with an opposite). These popular classes for beginners and brushers-uppers will be conducted by Barbara and Bill Riley.

During the following week, from April 10 to 15, a great variety of morning and evening classes began, from art to auto driving, from serious classes like investments and practical speaking, to the healthful activities of fencing and Slim Jane. This adult program offers opportunities to learn to drive, dance, play bridge, paint and draw, evaluate investments, improve your public speaking, fence, and improve your figure and beauty routines. The groups are not large, affording professional instruction with a congenial group of students. The auto driving course is instructed by Edward Weist

and Russell Hatch who have been instructing Newton High schoolers for over ten years, will again assist adults over 25 years of age on the way to getting licenses.

Leo Vania, who, during the winter semester, had a most successful class of huddling artists, is again offering his experience to guide other men and women who would like to develop hidden talents.

Master fencer, Sero Larocca, will return also to instruct local people in this growing sport that develops quick wits as well as toning up muscles. The Olympic showings on TV have done much to stimulate this activity.

The team of Richard Caruso and Herbert Myers will instruct those who are interested in learning about the world of stocks and bonds for both beginner and advanced.

The regular staff of three instructors will be teaching contract bridge both mornings and evenings for either beginners or reviewers. Forrest Maddix will teach beginners Thursday mornings. Mrs. James McIntyre will instruct reviewers on Tuesday mornings while Mrs. Walter Holden will teach beginners at 7:00 P. M. and reviewers at 8:30 P. M. on Wednesdays.

Practical public speaking, the class guided by James Hoffard of "Speech Advisors" is a new offering for the spring semester and will deal with communicative conversation, discussion methods as well as public presentation. During the ten 2-hour sessions, every student will have an opportunity to participate.

The two classes of Slim Jane and creative dancing are especially designed for women and present two phases of physical activity for development from which to choose. These classes will be instructed by Jean Gruhn and Erna Greene, respectively.

The Newton Y. M. C. A., in its west suburban setting, aims to assist people, not places, in meeting their needs; so whether you live in Arlington or at the other end of the alphabet in Waltham, if the Newton Y is offering what you want, don't be bashful, call in and ask the Adult Division at BI 4-6050 for full details and information. SPEAK FOR FLUORIDATION—Prominent Newtonites who spoke in favor of fluoridation at Williams School PTA meeting, are, left to right, Dr. William Wellock, Dr. Sydney Gellis, Dr. Richard Blagbrough and Dr. Thomas Plaut.

Williams PTA Meeting Hears Fluoridation Talk

Four prominent Newton citizens, proponents of water fluoridation, were speakers at the recent meeting of the Williams School PTA.

The speakers were, Dr. William Wellock, director of the Division of Dental Health, Mass. Dept. of Public Health; Dr. Sydney Gellis, head of the Dept. of Pediatrics at Boston University Medical School; Dr. Richard Blagbrough, Newton dentist and member of the Newton Chamber of Commerce; and Dr. Thomas Plaut, instructor of mental health at the Harvard University School of Public Health. Verne Hillman, of the Williams School PTA, was chairman of the meeting.

Dr. Wellock pointed out that almost one sixth of all health expenditures are for dental disease and that up to two-thirds of dental caries can be prevented by adding fluoride to the water supply. Dr. Wellock reported, "In the nearby town of Danvers, which has fluoridated its water for less than ten years, there has been a fifty per cent reduction in tooth decay among children."

Dr. Gellis, speaking as a pediatrician, indicated the responsibility to do all they can to safeguard the health of their children. He said, "It is the right of children to have their health protected by their parents while they are young. We, as Newton parents, have a responsibility to see that our children get the benefits of

This annual sale is planned for Tuesday evening, May 2, at the Center, 429 Cherry street, West Newton, from 7 p.m. to 9 p.m. Proceeds will be used to benefit the mortgage fund.

Mrs. Joseph C. Skinner and Mrs. Arthur Barnes are the overall chairmen with the able assistance of Mrs. Roland B. Macdonald in charge of personnel; Mrs. George Dana Sprague and Mrs. Ernest O. Worthen on publicity.

Anyone needing help in getting their contributions of merchandise to the Centre may phone the Pick-up chairman—Mrs. Ernest G. Angevine, BI 4-1776 or Mrs. Kenneth A. Henderson, DE 2-1941. Donations of clothing for all ages, books, games, household articles, bric-a-brac, sporting equipment, furniture, jewelry, linens, toys, shoes, hats and bags will be most welcome.

Among the department chairmen for the sale are Mrs. Edmund Anthony, Mrs. Chester B. Lomax, Mrs. Loomis S. Kinney, Mrs. Hugh Robinson, Mrs. Arthur W. Senecal, Mrs. William B. Price, and Mrs. Henry B. Shepard, president of the board of directors.

The Center, which is a Red Feather Agency, is in the midst of an active Spring season under the leadership of William Byrne, executive director. The building is open and buzzing seven mornings, six afternoons and five evenings each week with a program including interests that range from Nursery School age to our Senior Citizens.

A calendar of activities is available to all who might like to participate. Plans for the summer camps are well set and the Center is even looking ahead to next fall and asking for nursery school registrations while room is still available.

Auburndale Club In Play Tonight

The Auburndale Club of Melrose street, Auburndale, has been busy rehearsing for a play "The Happiest Millionaire" to be given April 13, 14, and 15.

The play is directed by Chuck Ganss, who has had professional experience prior to directing the many plays he has for this club. Lorraine Johnson LA 7-4220 is in charge of tickets.

Newtonites In Top Roles For Show on Friday

Thelma Coplen, of Newton, plays the lead in the play. She has had considerable stage experience as a musical comedy actress on Broadway where she was known as Thelma Pauline. Early in her career she appeared in motion pictures at Paramount Studios.

Annetta and Mel Swartz, of Kredenser Studios, are in charge of costumes and properties for the play.

Aldermen Axe Mason Apartments

The Newton Board of Aldermen, for the second time this month, quashed plans for apartment house projects in Newton. Still pending is the proposed multi-million apartment-office-shopping center at Norumbega Park.

On Monday evening following a public hearing at City Hall, the Board voted to table a motion to rezone the site of the abandoned Mason School in Newton Centre to permit construction of an 80-apartment building with ground-floor stores.

President Wendell R. Bauckman found that on a call for a show of hands among those present the vote against the change was 81 to two.

Only last week the Aldermen unanimously killed a proposal for a \$115 million apartment house complex in a section of the Commonwealth Country Club. The Chestnut Hill Park Associates had planned three 14-story and four 11-story apartments totaling 800 units on the Country Club site.

Developers of the proposed Newton Centre project are Turner Associates. They sought the rezoning of the 75,900 square foot plot. Last June the Board of Aldermen voted to rezone the plot upon request of Mayor Donald L. Gibbs.

However, the Newton Centre Improvement Association has sought a court injunction to halt the sale of the old Mason School land for a reported

Approve New Dean At Jr. College Here

The Newton School Committee approved the appointment of Charles D. Merrill as Dean of the Newton Junior College at its meeting held last Thursday.

Mr. Merrill, a former science teacher at North Quincy High School, joined the Newton school system in 1956. He is a graduate of Boston Teachers College and Boston University where he received his Masters degree in Education and his Doctorate in Health and Science in Psychology.

The Board also approved the appointment of Harry Pook as manager of services at the Junior College; accepted the resignations of 10 teachers and appointed 16 additional teachers in Newton's schools.

Legislators In Absurd Move As They Limit Own Session

Either the members of the Legislature were acting in an absurd and preposterous manner when they voted for a constitutional amendment which would limit the length of their annual sessions to six months, or they were registering a public protest against the failure of their leaders to conduct their business in an expeditious fashion.

Their isn't any other logical explanation for the action of the law-makers in moving to place a time limit on their own deliberations. It sounded as if they were voting for a reform. But whom were they trying to reform?

If the legislators can complete the disposition of all the measures before them within a six-month period, they should not need a provision in the State Constitution to compel them to do so.

If they need more than six months in order to perform their duties properly, the limit is unsound and unwise. In such an event it could only result in so-called moonlight sessions, at which bills are rushed through without half the legislators fully knowing what they are voting upon, or in measures being pigeon-holed without any action taken on them.

Chamber Of Commerce In Strong Stand For Rezoning

The Newton Chamber of Commerce has taken a strong stand in favor of the proposed rezoning and development of Norumbega Park.

Stressing the need for vital planning for this city's future, the Chamber points out that the tax income from the Park has been approximately \$18,000 per year while the proposed project, when completed, should conservatively contribute to Newton's tax relief nearly \$1-million per year, or more than fifty times the present income. \$25-million projects are not common in the Chamber's opinion.

Explaining the stand in favor of the rezoning and development of the park area, the Business Planning and Development Committee of the Chamber of Commerce has prepared and issued a 16-page report which explains the Chamber's reasons favoring the rezoning of Norumbega Park.

The Chamber's report states that "it is not logical to envision the present continued use of the park and its facilities."

"As a matter of fact, this area has long since lost its recreational importance to

Newton, and, through deterioration, already is considered by many in the neighborhood to be objectionable," the report states.

The report points out that the current plans for a 200-unit motel, a 5-story office building, a 6-story office building, and a series of high-rise apartment buildings, in

the Chamber of Commerce opinion, reflects a recognition by the planner of the need for preserving, insofar as possible, the natural beauty of the area.

Volunteer Workers Set For Doorbell Detail

"Crusade Day" Will Launch Drive For Funds To Wage War On Cancer

The sound of ringing doorbells will signal the start of the 1961 campaign of the American Cancer Society in Newton when "Crusade Day" is observed here next Tuesday, April 25.

Mayor Donald L. Gibbs has taken official cognizance of the importance of the event and has proclaimed Tuesday as "Crusade Day" in Newton.

Local volunteer workers will call on homes of friends and neighbors throughout the city to dis-

tribute educational leaflets and to solicit funds for the campaign, which is co-chaired here by Police Chief Philip Purcell and E. Tyler Parkhurst.

"I hope every door in the community will be open to welcome our Crusaders," Chief Purcell told The Graphic. "If everyone followed the advice contained in the leaflet to be left in each home, more than 85,000 lives could be saved. This is the number of men, women, and children who die of can-

cer in the United States each year but who could have been saved by heeding the simple advice stressed in the American Cancer Society's educational program."

Chief Purcell added that the best protection against cancer was to have annual health checkups and to get speedy medical attention at the earliest sign or suspicion of any of cancer's seven danger signals.

Pointing out that at least

\$24,300 Bail Set For Two Youths Caught In Roaring Race At Dawn

Get-Away Car Crashes Parked Autos; Bullets End Race For Suspects

Two men, arrested after an early morning, 90-mile-an-hour chase from Oak Hill into West Roxbury, are being held in bail totalling \$24,300 and are awaiting trial in Newton court on a variety of charges. Their case has been continued until next Wednesday.

The story preceding their arrest was marked by action and drama, with cars careening at high speeds through quiet streets just as dawn was breaking and bullets fired in the air when the two men tried to get away on foot after their automobile struck three parked cars in West Roxbury.

One of the men surrendered to Newton Patrolman George F. Sullivan after the latter fired three shots in the air.

The second man escaped, but only temporarily. He was arrested a few hours later by alert Boston detectives as he walked past the Roxbury Crossing police station.

It all started when Patrolman Sullivan observed two men lurking near the Prioli Brothers gasoline station on Saw Mill Brook parkway in Oak Hill.

As Sullivan approached them, the men jumped into a car and raced away. The patrolman gave chase.

The two automobiles, the needles of their speedometers climbing to the 90-mile-an-hour mark, roared from Saw Mill Brook parkway onto Spruce road, over Dedham street, along Baker street and into West Roxbury.

On Baker street the high-speed pursuit ended when the car in which the two men were riding crashed into three parked vehicles.

Both men jumped out of the machine and tried to flee on foot. Sullivan was only a short distance behind them. He whipped out his revolver and fired three shots in the air.

Two of the bullets whistled over the head of Thomas H. Burns, 20, of 190 Ruggles st., Roxbury, who promptly surrendered. But Burns' companion got away.

Three and a half hours later, Kenneth F. Giracca, 22, of Hanson rd., Oak Hill, was taken into custody by detectives as he walked past the Roxbury Crossing police station. Police charged that Giracca had been with Burns

Newton High 9 Adds Two More Wins

Newton High added two more wins in Suburban play in its last two outings, edging Newton South High 3-2 last Wednesday, and out-slugging Cambridge Latin 18-4 at Newton High Field Monday afternoon.

Newton scored all its runs in the third inning and if the game had gone to a normal conclusion might have tallied a few more, but the game was called in the eighth inning on account of cold and darkness. Newton had three runs across, two runners aboard and one out, when the score reverted to the end of the seventh inning.

Newton again went ahead in the third inning against Cambridge with three runs, and then the rout began. Dave Fox was the batting star with six runs driven in on three hits, which included a two-run homer.

Fluoridation Sermon Topic Of Rev. Fisher

The subject of the sermon at the First Unitarian Church of Newton last Sunday, was "Is Fluoridation a Religious Issue?" Rev. John Ogden Fisher brought out that it is in the spirit of a liberal religion for man to share his knowledge so as to improve man's life regardless of his social and economic position.

In so far as man has a responsibility for social improvement, then, perhaps, fluoridation may be considered a religious issue. Rev. Fisher traced some of the history of water supplies since the days of Abraham, referring to the tradition of sharing a water supply because of man's need. He said the development of community water supplies has required making these supplies the best available; this is done by removing undesirable material and adding desirable material.

Fluoride is a desirable material which is always present in water but frequently in inadequate amounts. After extensive studies, the U.S. Public Health Service recommends that the benefits of fluoridated water be brought to all communities with municipal water supplies containing too little fluoride.

In his sermon, Rev. Fisher emphasized the importance of clarifying one's thinking regarding this topic so that intelligent action can be taken and excessive emotion not interfere with evaluation of this issue.

Herter joined with the area treasurer in appealing to everyone who is interested in the future of crippled children and adults and has not contributed to this year's Easter Seal campaign to do so as soon as possible.

one half of all those who get cancer could be cured through early detection and proper treatment, E. Tyler Parkhurst, co-chairman with Chief Purcell, said that the American Cancer Society could make this goal a reality if it had funds to do the job.

"The Society was mainly responsible," he said, "for the dramatic rise in the cancer cure rate. Twenty years ago only one out of seven who developed cancer was saved; today it is one out of three. With adequate public support and personal action it could be one out of two."

Money raised in the Crusade will not only be used to step up educational programs, but to provide service for cancer patients and to support research of scientists who are working unceasingly for a cancer cure or preventive. Progress in cancer research can go only as fast as funds are available. On April 25 approximately 1500 volunteers will go into action to distribute information about, and raise money for the Cancer Crusade.

New Sidewalk Is Disfigured With Vandal Markings

A further example of pin-headed vandalism was revealed in the Newton Centre neighborhood this week when a freshly-laid concrete sidewalk was totally disfigured by deeply impressed markings, before the material had a chance to dry.

The section of sidewalk was laid out near the intersection of Beacon Street and Highland Street in Newton Centre. City workers did a good job and left the stuff to dry when the irresponsible hoodlums moved in after dark to mess up the job.

The police were notified by a resident on the street who stated that the damage was done after the city workers left Monday afternoon.

Three-hundred fifty years ago, in 1611, 54 devoted English scholars and churchmen, assigned to the task by King James I, gave to the English-speaking world a monument of noble prose, most of the present generations having been brought up on it and memorizing portions from the translation.

The version was based on previous English renditions such as Tyndale and Coverdale, and originally came from the Greek and Hebrew by way of the Latin Vulgate. Also, 350 years ago this year

Strong Stand-

(Continued from Page 1)

opment and taking up the hard facts of finances the Chamber of Commerce report reminds that Newton, geographically situated on the perimeter of the broad, western movement of Metropolitan Boston, is at a crucial period attempting to maintain high standards for its citizens.

The city will have to act with dispatch in meeting these problems, the Chamber of Commerce warns. It further points out that the development and growth of Route 128 and the impact of the changes that are about to take place on the East-West turnpike, combine to add further deteriorating factors in the future of Norumbega Park as a Sylvan retreat with high recreational value, as was the case in the past.

PLAN PROVIDES ECONOMIC SUPPORT
It is the opinion expressed in the Chamber of Commerce report that the proposed development offers excellent economic support for the already numerous shopping villages throughout the city, and particularly the Auburndale merchants.

Pinpointing its support for the rezoning and planned development the Chamber of Commerce report states that the city has need of such a development, that located in the Norumbega Park area, on the fringe of Newton, the high rise apartment buildings would not be objectionable, but from a financial standpoint, would broaden the tax base; the architectural and landscaping beauty as conceived by the planners would enhance the appearance of the general area; the traffic problem has been given serious consideration by the developer and since these apartments would presumably serve many people oriented outside Newton, the over-all traffic effect

on this city would be minimized, that 60 percent of the traffic generated by the project would flow away from Newton or over the toll road extension.

Finally, the Chamber position believes, among other things, that the financial contributions of this project to the city would be significant and would assist in accomplishing needed tax base revenue source broadening.

The Chamber cites its concern for the city's financial problems and suggested that never in the past hundred years of Newton's history has there been looming on the horizon a single investment of approximately \$25-million, as this one does. "We are not sure it will ever be repeated again," the report reminds opponents of the plan.

George L. White served as chairman of the Business Planning and Development Committee of the Chamber of Commerce which prepared the report. Joseph C. Skinner was vice chairman.

Committee members included, Orville O. Clapper, Rev. W. Seavey Joyce S.J., Giles E. Mosher, Jr., Warren W. Oliver, Grenfell A. Swim, Richard J. White, and John M. Wilson all closely associated with the business and commercial life of Newton with the exception of Rev. Joyce, who is dean of the College of Business Administration of Boston College.

Political Highlights

(Continued from Page 1)

Whichever the case may be, the proposed constitutional amendment isn't one conducive to better government.

There are some years when the legislators should wind up their affairs in less than six months and other years when they should sit more than six months to do their job properly.

Beacon hill observers generally agree that this year's legislative session has been conducted in businesslike fashion and that comparatively little time has been wasted. Speaker John F. Thompson and Senate President John E. Powers have cracked the whip on committees to force them to act with despatch and stop dawdling over bills. In some cases they have taken measures away from committees.

Because of the complexity of transportation problems and other matters confronting this Legislature, however, there is no assurance that it can conclude its session by July 1 despite the optimistic predictions by Governor Volpe and others.

In fact, Volpe has declared that he will not submit his bill for the reorganization of the Metropolitan District Commission to the Legislature until after the court trials stemming from the MDC investigation have been completed. If he holds to that plan, his MDC bill will not go to the Legislature before the middle of June, which would virtually preclude prorogation by July 1.

The hard truth of the matter is that the average legislator has no control over the length of the session. He cannot determine when the Governor will submit messages for consideration. He hasn't the power to speed up the proceedings. He can only vote on the matters which are placed on the calendar for consideration.

Members of the Legislature are in a super-sensitive mood this year. They have felt the whiplash of public criticism for the pay raise they voted themselves after election last year. They recognize their standing with the public is not as high as it might be.

That probably is one of the reasons many law-makers bowed to pressure and voted recently for the constitutional amendment which would restrict the legislative sessions to six months. Don't be surprised if some of the House and Senate members who voted for the measure do an about-face and oppose it when it comes up for consideration a second time in 1963.

Politicos Buzzing Over Goldfine Case

The big topic of conversation in political circles both on Boston's Beacon Hill and Washington's Capitol Hill is the case of gift-giving industrial tycoon Bernard Goldfine who is scheduled to go to trial May 15 on charges of income tax evasion.

Former U. S. Attorney Elliot L. Richardson, a holdover from the Eisenhower administration, is being kept on the job by U. S. Attorney General Robert F. Kennedy to prosecute the case against Goldfine.

What especially intrigues the politicians is that Miss Mildred Paperman, Goldfine's "Girl Friday," recently gave Justice Department investigators a list of present and former public officials who allegedly received gifts of varying value from Goldfine.

That has caused a flurry of rumors concerning persons who are or have been in high places who might be embarrassed by having their names come out in the Goldfine case even if all they received was a few bottles of liquor at Christmas or a contribution at election time.

Miss Paperman did name sidy,

Living In Dignity

Editor, Newton Graphic
Dear Sir:

If we are open-minded as your correspondent of last week suggests (C. Robinson Fish 3rd) about the Norumbega Proposal, we must be fully aware of Newton's advantages under existing Zoning restrictions. We should not, if we are open-minded, be dazzled by promoters whose chief objective is to capitalize on the outstanding residential character of our city, and to profit handsomely thereby.

Stripped of sales talk, words such as "progress" and "luxury" used so glibly to describe the current rash of apartment projects, in the long run, spell retrogression for our Garden City. If these multiple dwellings materialize residents who settled in Newton because they preferred its residential character would find big city life and problems besetting them. Stripped of fancy talk, the plain and simple fact is that any changes in zoning to permit multiple dwellings of any type in an area now largely devoted to one family homes (made possible by some forty years of careful zoning) would be highly experimental and would needlessly expose the distinguished character of the area and of the city to certain despoliation.

However described, the projects which promoters are attempting to impose on communities such as Newton are meeting with determined and strong opposition. The reason for this is that resident homeowners, who pay the tax bills, do know what is good for them and their community.

They recognize these projects as apartment houses, whatever the nomenclature. They have observed how apartment dwellings have grown shabby and have reduced the standards of whole areas in other cities which have not enforced zoning ordinances as carefully as Newton.

They know that the high concentration of population, caused by apartment houses, and which does not sink its roots in the community, tends to hasten blight and produce slum area ultimately. We have but to observe the unhappy condition in neighboring communities The so-called "luxury" apartments of yesterday are the blight of today.

The much heralded boon to the taxpayer, the broader tax base, if at all realized, was at best temporary. But the lasting results are vexing economic, social, and financial problems that plague those cities and towns.

We of Newton are exceedingly fortunate in our situation and we should not gamble it away, trusting to luck. Our present ordinances are tested and good.

Certainly we must wrestle with the problems of rising governmental costs. But here in Newton we do have a great deal to show for our tax dollar — good schools and a good municipal government. Ours is a city where we can live in dignity and rear our families in a wholesome environment.

Further, recent decisions on these zoning matters coming before our Aldermen offer encouraging evidence of our capacity to continue good self-government which Newton has so long enjoyed. A sound sense and understanding of the basic values we live by is indicated by the deci-

By the time a political writer gets through matching up all the conflicting claims and all the contradictory statements he's likely to wind up by reaching for the aspirins.

Some of the switches and changes undoubtedly are due to the influence of Governor Volpe who apparently shifted Republican leaders behind his New Haven subsidy bill after they had announced themselves against it.

Beacon Hill observers, who have tried to anticipate what would happen on the transportation measures, for the most part have thrown their forecasts out the window and have decided to sit back and wait to see what happens.

One week legislative spokesmen assert that the State can't afford to give the New Haven \$5 million or pay \$1,150,000 for the abandoned Boston-Braintree branch of the Old Colony, and the next week they proclaim loudly that the Commonwealth can't afford to let the New Haven go bankrupt or to pass up a bargain like the Boston-Braintree branch which they estimate is conservatively worth close to \$10 million.

Then there's the puzzling question of where the State would get the money to finance the two important transportation measures and the even more perplexing conundrum of what will happen on the New Haven lines if the Commonwealth doesn't vote it a sub-

sions made by our Aldermen. At a time when political cynicism is all too prevalent the recent action taken by our Aldermen on similar matters comes as a salutary influence.

It is earnestly urged that our community continue to be guided by the thinking expressed in the statement issued by the Newton Taxpayers Association (Feb., 1961):

"In General, open land should first go through single residence zoning. Multiple family structures should be placed primarily on land where there are existing old structures. Their main use should be for renewal purposes."

Opposes Fluoridation

Editor, Newton-Graphic:

From time to time publicity has appeared in the Graphic in regard to the controversial fluoridation issue and whether Newton should adopt this method of mass treatment through the public water supply. Since I have been interested in the subject for some time, I feel your readers might like to know some of the facts that I have been able to learn.

If fluoridation is, as some assert, so beneficial, safe and legal, why have over 2,500 communities, representing more than 60 million people voted it down? In a March, 1961, referendum in Massachusetts, fluoridation was defeated in Brookline, Burlington, Wrentham, and Weymouth. It was also voted out in Andover after a three or four year trial period. This was the sixth Massachusetts city to discard fluoridation after trying it out, the others being Hudson, North Andover, Northampton, Reading, and Williamstown. Over 100 other cities throughout the country have taken action to stop fluoridation after having tried it out. This shows the existence of a national trend in which fluoridation is being defeated repeatedly when put to public vote.

If fluoridation is as good as it is claimed to be, why did Philadelphia institute a multi-million dollar dental health program of individual care after fluoridation was imposed involuntarily in that city? If it is legal, why did Missouri Circuit Judge Douglas L. C. Jones on July 5, 1960, rule that a fluoridation ordinance in St. Louis County "deprives plaintiffs of 'life, liberty and property without due process of law' and is a violation of the Fourteenth Amendment of the Constitution of the United States. Constitution and is therefore void and unconstitutional?" Because it violates the right of the individual to decide for himself in matters of individual, non-contagious health problems as to the mode of treatment he shall employ. It is not in our tradition to compel free citizens to subscribe to or submit to a political, religious, social or medical orthodoxy.

I favor a voluntary dental health program based on good nutritional, oral hygiene, proper dental care, and, if necessary according to medical opinion and desired by the parents, individual fluoride treatment through the use of dentifrices or tablets or topical application — all endorsed by the American Dental Association as being effective in reducing dental decay. Such a

program promotes dental health without destroying individual freedom and rights of conscience, whereas fluoridation converts the public water supply into a medicinal fluid and compels everyone to submit to the treatment whether he needs or desires it or not.

How can the concept of fluoridation — compulsory communal medication — be justified with the basic principles of individual rights and freedom of conscience upon which this nation was founded?

What if a public health officer knocked at your door and said, "I have come to apply fluorides to your children's teeth." You could answer, "No, thank you, I do not wish your services since I rely on my own dentist in the care of my children's teeth." Whereupon he might reply, "Sorry, madam, you have no choice in the matter."

This is the principle involved when you are forced to drink fluoridated water.

DISCUSS BUILDING FUND DRIVE—The board of trustees of the All Newton Music School plan building fund drive at meeting this week. Left to right, Mrs. Loomis Patrick, past president; Winslow S. Adams, vice president; Miss Gretchen Clifford, president; William Clarke Custer, secretary, and Mrs. Irene K. Thresher, chairman, new building fund committee.

\$100,000 New Building Fund Is Launched By Music School

A Building Fund Committee of forty Newton citizens was formed this week to help raise \$100,000 for a new building and expanded facilities for the All Newton Music School.

Founded in 1911, this non-profit community school this year celebrates its fiftieth anniversary of successful and appreciated musical service to Newton and surrounding communities.

At the present time, its student enrollment is about 600. However, due to the lack of space and facilities, many young people desiring musical education are turned away.

The New Building project has the backing of civic and music minded groups and it is planned to raise the financing required as quickly as possible so that the necessary plans for expansion of the school's facilities can be put into operation with the least possible delay.

The New Building Fund Drive campaign is based on the belief that music study of a high quality should be made available to all who possess talent and desire an appreciation of it.

Unique Outdoor Daffodil Show Draws Visitors

Many Newton residents, together with flower lovers from all over the state and New England, will make their annual pilgrimage over the week-end to Sandy Valley Road in Dedham to enjoy the four-acre planting of naturalized daffodils originated by the late John L. Russell.

The early varieties are now open and others are opening daily. There are over 150,000 bulbs in over 400 varieties planted in this spacious, natural garden, comprising four acres of rolling land, evergreens, trees, rocks, natural ledges, and two trickling brooks.

More than a mile of winding pine needle paths guide visitors over rocky knolls, across the meadow and along the brooks. Sandy Valley's unique outdoor flower show has been praised many times in magazines, newspapers and on television. The late John L. Russell, nationally noted horticulturist, created the display several years ago. It is carried on in his memory by his widow.

Experts To Be At Family Tree Weekend Festival

Final preparations are being made for the 6th anniversary spring festival weekend to be held at the Family Tree Garden Center, 1239 V.F.W. parkway, West Roxbury, this coming Friday, Saturday and Sunday, during regular store hours.

Those attending will not only have an opportunity to win one of the many fine door prizes or the grand prize displayed in the shop, but will also be able to discuss at length with experts any of their problems in home gardening and plant care.

An unusual service of on-the-spot soil analysis will be conducted by Roy Sibley, agronomist, for anyone who is interested. This is accomplished through a new and interesting electronic device which can determine in minutes the exact acidity factor of any soil subjected to the test.

Mr. Sibley and Mrs. Pasqualucci, lawn and turf specialists, will gladly help those with soil problems, advising up-to-date, efficient methods of correction and improvement.

Notable among the specialists will be the internationally known rosarian, W. Dexter Brownell, who will be on hand to advise the festival visitors on such rose care problems as planting, pruning and general maintenance. He will also help in the selection of rose varieties for various uses.

These are but a few of the many specialists who will be on hand this weekend. The Dennis brothers, George and Dick, with Lawrence Tasker and Charles Weatherbee, have built the Family Tree Garden Center on the foundation of accurate, courteous service with experienced direction for those who require it.

Owners Urged To Have Dogs Vaccinated

The Newton Health Department today urged dog owners to have their pets immunized against rabies, even though there have been no cases of human rabies in this state in recent years and no cases in dogs since 1949. There is always a danger that this disease might be reintroduced from other areas where it is present. Prior to 1940 it was not unusual to have 300 or more cases per year of rabies in animals. Dog owners were urged to have their dogs vaccinated by their own veterinarian, or to bring their dogs to the vaccination clinic being organized and sponsored by the Newton Health Department in the latter part of May. Various Newton fire stations and the Police Headquarters garage will be used for clinics to make it easier for dog owners to bring their pets. Further details will be available later. "In recent years several cases of rabies in animals were reported in neighboring states," the Health Department said, "and the disease could easily be reintroduced into Newton. In the event of an importation of a rabid animal into Newton the disease will not spread among dogs if the dog population is vaccinated."

OUR READERS SAY

About Future Needs
Editor,
Newton Graphic
Dear Sir,

It was most heartening to witness the recent vote of the Aldermen pertaining to the Commonwealth Country Club rezoning. No sooner was this skirmish won than another appeared in the form of rezoning the Norumbega Park for apartment house and commercial development.

Although I had a far greater personal stake in the Commonwealth area I am intensely interested in open spaces in Newton, the few that are left, I feel very strongly that Newton and its elected representatives particularly have to take a long, hard look at itself. What is on the way to becoming is not very pleasant to anticipate. With no true overall master plan to guide its future growth and development there is this constant pressure toward residential and commercial development on the few open acres remaining. Little thought or consideration has been given to the recreational needs of a city of this size and population. By letting the tax dollar be used in one measure by which to plan we have lost sight of some fundamental aesthetic values inherent in open natural woods and fields along with the youngster who transports himself on his bike and the older who would like "someplace to walk to" plus all else who fall between.

Those of us who choose to bring our children up in the suburbs are willing to accept the necessary tax raise which would enable the city to keep inviolate the little bit of country that remains. Newton should certainly consider the Federal Urban Renewal resources which would underwrite the much needed Master Plan. Without this and a vigorous, vocal, professional, fulltime city planner the Board of Aldermen will be forced to continue the piecemeal approach they now engage in.

It is interesting to note how vigorous and vocal citizens can become when they are certain about what they don't want as the various Civic Improvement Associations and their stand against rezoning their own areas. It would be wonderful if they could pool their membership, resources and vitality to do something positive thereby making possible what they do want for Newton.

Very truly yours,
MRS. MELVIN I. SHOUL

Thanks From
Heart Fund
The Editor,
Newton Graphic,
Dear Sir:

The officers and directors of the Greater Boston Chapter, Massachusetts Heart Association, have given me the pleasure of expressing our gratitude for your publication's support of the 1961 Heart Fund campaign.

Once again, our Heart Officers received a warm and sincerely interested response throughout their door-to-door canvass through your community. We believe that this speaks clearly, not just for the vital importance of the fight against cardiovascular disease, but for the manner in which your newspaper supported our cause.

Needless to say, my warmest personal thanks go out to you for your assistance. Sincerely,
John B. Hynes,
1961 General Heart Fund Chairman.

Newton Man Is Named To NATO Post In Paris

A Newton man, Lawrence Levy, has been appointed Defense Representative, North Atlantic and Mediterranean areas, and as defense advisor to the U. S. Ambassador to NATO, Thomas K. Finletter, according to the announcement today by Robert S. McNamara, Secretary of Defense.

Mr. Levy will serve with the personal rank of Minister, and will assume his new duties in Paris after a swearing-in ceremony at the Pentagon on Thursday, May 11th. He has been active in the aeronautical engineering field for more than 16 years. He served for three years during World War II in the U. S. Army Air Force in this country and in the China-Burma-

Two Protests Hit At Norumbega Park Plan

Two statements of protest were released this week concerning the proposed rezoning of Norumbega Park to permit construction of a \$25 million apartment-office-shopping center on the site of the one-time popular recreation and amusement area.

Petitions for rezoning the park area along the Charles River were taken under advisement by the Newton Aldermanic Claims and Rules Committee and the City Planning Board following a public hearing before the Board of Aldermen on April 10. The proposed rezoning was strongly supported by the Newton Chamber of Commerce, which stressed the need for vital planning for the city's future, and pointed out that "25 million projects are not common." The Chamber stated that development of Norumbega Park would contribute approximately \$1 million per year of tax income to Newton.

Daylight Saving Time Here Again

This is the weekend when most folks lose an hour's sleep because daylight saving time goes into effect at 2 a.m. on Sunday, April 30.

So, to be sure to be on time for church services Sunday morning, or that golfing date, householders are urged to set their clocks and watches ONE HOUR AHEAD when they retire Saturday evening.

Subsequently the Chamber of Commerce received a letter — PROTEST PLAN — (Continued on Page 12)

CD Sirens And Whistles Will Toot Tomorrow

Civil Defense sirens and whistles will sound off through the Bay State at noon tomorrow, Friday, April 28. But, there's nothing to get in a dither about; Castro isn't invading the U. S. It's just a practice alert.

The signal will be "Take Cover" the ultimate warning. It is a three-minute warbling tone or series of short blasts. The test is sponsored by the State Civil Defense Corps and should be completed in 15 minutes.

Citizens do not have to duck under cover but are requested to report to local or state CD headquarters whether they hear a signal, at exactly what time, and how clearly they heard it. State headquarters, 143 Speen St., Natick. Phones OLYmpic 3-7440 or CEDar 7-0200.

Three Veteran Teachers Here Retire June 30

Three veteran Newton school teachers, whose combined careers cover a span of 125 years during which thousands of youngsters passed through their classrooms and offices, will close their books June 30.

The retirements of Miss Ruth H. Burgess, Miss Marian E. Green and Miss Elsa W. Stone was approved Monday night by the Newton School Committee.

Elderly Woman Killed By Auto

Newton's third highway fatality of 1961 was registered last Thursday evening when Mrs. Flora G. Tufts, 79, of 170 Lincoln St., Newton Highlands, died at Newton-Wellesley Hospital from injuries suffered when she was struck by a car. Police reported that Mrs. Tufts was struck by a car driven by a Framingham man as she crossed Rte. 9 in Newton Upper Falls about 7:30 o'clock. The driver told police the woman stepped from the dividing island, that he jammed his car brakes, but could not stop in time.

Plan Assessment Raises To Hold \$59.60 Tax Rate

\$800 Boost On Homes Considered As Means Of Saving Rate Rise

An \$800 increase in the tax assessments on most homes in Newton is being considered by the Board of Assessors as a means of averting a threatened \$3 rise in the city's tax rate which last year was \$59.60.

No final decision on the matter has yet been made or will be made until after the assessors confer next week with Mayor Donald L. Gibbs who presently is on a short vacation but is due back at his desk in City Hall next Monday.

A strong possibility exists, however, that a determination will be made to raise the valuations on almost all dwellings by \$800, The Graphic learned.

Mayor Gibbs conferred on the matter at length with the assessors before leaving on his trip, and they are now in the process of compiling figures and data for his consideration upon his return.

At the time of his departure a re-valuation of properties in the city to prevent a hike in the tax rate was generally favored by top municipal officials. Tentative estimates indicated that the \$800 boost in most assessments would prevent any jump at all in the tax rate and might even make it possible to lower the rate slightly below last year's \$59.60 figure.

Business places and homes built within the past five years would be exempt from the proposed \$800 assessment increase under the plan now being studied by the assessors.

Commercial establishments in Newton for the most part already are over-assessed, in the opinion of experts. High valuations also have been placed on homes constructed within the last five years.

As a rough estimate, it appears that persons whose homes are assessed for more than \$13,000 would pay a smaller tax bill if their assessment were increased \$800 than if the tax rate went up between \$3 and \$4.

Those whose homes are assessed for under \$12,000 or \$13,000 would pay a larger tax bill as a result of the \$800 increase in valuations than if the rate was hiked.

Hardest hit percentage-wise by the \$800 rise in assessments would be those homeowners whose dwellings are

28 Young Auburndale Students Clean, Paint Sharecroppers' Homes

Twenty-eight high school boys and girls from Auburndale, ranging in age from 15 to 18, are back home from a Spring vacation which consisted of cleaning, scraping and painting homes of poor sharecroppers in Bricks, N.C.

The youngsters are members of the Auburndale Congregational Church Pilgrim Fellowship. They were led by Rev. Peter F. Schneider of 87 Grove St., and chaperoned by Mr. and Mrs. Samuel Turner of 25 O'Rourke Path.

They paid \$800 to charter a bus for the round trip, paid \$10 each for room and board for the week at the Franklin Center Congregational all-Negro church in Bricks, and then chipped in \$35 of their spending money to buy some furnishings for one home which lacked the barest furnishings.

From Monday morning until Thursday evening the Auburndale youngsters, clad in blue jeans and sweat shirts, skirts and sweaters, painted, scraped, cleaned, dug some culverts and did all sorts of odd jobs to help clean up the home of the poor residents of the North Carolina town.

"It was just wonderful, we really saw some life in the rough," one girl exclaimed. "Anybody can just go to New York or Washington on

POLITICAL HIGHLIGHTS

Volpe-Thompson Cold War Made Hot By GOP Chairman

The cold war between Republican Governor John A. Volpe and Democratic House Speaker John F. Thompson suddenly has become hot, and it's likely to grow a good deal hotter as a result of a blistering personal attack upon Thompson by GOP State Committee Chairman Philip K. Allen.

Even Senate President John E. Powers, who has endeavored to adopt a non-partisan attitude in his dealings with Volpe, may find it difficult to stand apart from the three-cornered clash which is almost certain to continue between Volpe, Thompson and Allen.

An unusual aspect to the situation is that Volpe apparently will have Allen throw his political brickbats for him, but it would be naive to assume that Allen leveled his blast at Thompson without first clearing it with Volpe.

Newton's School Health Program Broadens Scope

How do physicians serve the community? To interpret the work of school doctors in meeting the health needs of the city's children, the Charles River District Medical Society has sponsored the following article.

The role of the school physician in Newton has changed in recent years as the city's Department of Public Health helps the schools become centers for improving the health of the community.

Pioneering aspects of the new Newton program so interested the New England Pediatric Society that Dr. Harry Phillips, Newton Public Health director, was asked to present highlights at a recent meeting.

Working with physicians from the neighboring communities of Needham, Wellesley, Waltham, and Newton, Dr. Phillips is also chairman of the school health committee of the Charles River District Medical Society.

Emphasis on routine health examinations for the 20,000 pupils in the 33 public and 10 parochial schools of Newton has changed from the former "check up" to a consideration of their total health picture. The examinations required by state law every three years are performed by their family doctors for the majority of pupils.

More than 80% of the parents of children entering kindergarten this year filled out new health questionnaires providing information on family background, past illnesses, developmental history, and present problems of the new pupil. This information is being used by school doctors and nurses as a starting point as they follow the progress of each child through his school years.

Leo A. Conzo Is Awarded Plaque For Top Service

The much maligned Television Serviceman can "take heart" from the splendid record of Leo A. Conzo, owner-operator of Silver Lake Television & Radio Co., 337 Watertown St., Newton. Leo, as he is known to a legion of friends was born in Boston but has spent his lifetime in Newton. He has just completed 30 years of service in electronics to friends and customers in the Newtons from home base in the same block in the Silver Lake location. Mr. Conzo has just been awarded a plaque of Merit for outstanding service to the public and the Electronics Industry by the State Chapter of the Electronics Technicians Guild, of which he is a member.

It's a long road to travel from 1923 F.A. Day Junior High School Radio Club of which Leo Conzo was president, to selling and servicing TV and Stereo today. In between, Leo completed training and received a Certificate as a Radio Technician at the National Radio Institute, Dec. 22, 1930 at Washington, D.C. Later he took Electronic courses of study at Boston College and Harvard University. During the World War II years, Mr. Conzo's valuable electronic training and experience was put to good use with an important position at the present day electronic giant Raytheon.

The history of Silver Lake Television and Radio is one of the oldest in the area—many "firsts" include: first dealer in black and white and color Television, Citizens Band 2-way Radio Control in shop, home, 2 cars and service trucks. Utilizing this radio control system, service calls can be made in as little as 15 minutes with a control range of 15 to 20 miles—which is a big factor in good customer service. A most complete stock of parts and the very latest in Testing Equipment makes this firm second to none.

Motorola (for 20 years) is featured at Silver Lake TV & Radio including: TV sets (large inventory), Radios of all types for the home and auto, Record Players, Stereo,

have found, homes assessed as low as \$3000 are selling for close to \$15,000.

FEW EXAMPLES OF PROPOSED HIKE

Here are a few examples of what the proposed \$800 increase in assessments would mean to certain property owners as compared to what the same owner would pay if the rate went up \$3.50.

A \$3.50 hike in the tax rate would add \$17.50 to the real estate tax bill of the owner of a house assessed for \$5000. The \$800 increase in assessment would cost him about \$47 if the rate were lowered to \$59, as is expected.

For the owner of a home assessed for \$10,000 a \$3.50 jump in the tax rate would mean \$35 on his bill as compared to the same \$47 for an \$800 increase in his assessment.

A \$3.50 boost in the tax rate would cost the owner of a \$15,000 home \$32.50, while the \$800 increase in assessment would mean the same \$47.

For the owner of a home valued by the city at \$20,000, the \$3.50 hike would represent \$70 on his tax bill as against the \$47.

Chairman Edward A. Fahey of the Board of Assessors told The Graphic last night that he is not in a position to make any statement on the revaluation of any property.

ties in Newton and that no decision has been reached on the matter.

Fahey said the employees in his department are still gathering data and tabulating figures and that whatever decision finally is made probably will be based on those figures.

However, The Graphic learned that Fahey started a revaluation of all the properties in the city last October. Because of the magnitude of the job that revaluation has not yet been completed.

Political Highlights

(Continued from Page 1)

The explosion of political fireworks was touched off when Thompson, who is a prospective candidate for the Democratic nomination for Governor next year, made a partisan speech before the Worcester Democratic City Committee.

Thompson characterized the first 100 days of the Volpe administration as "the era of good fooling" and charged that Volpe "has been fooling and misleading the people of Massachusetts."

He went on to lambaste Volpe on a number of points. While sections of Thompson's speech were strongly worded, it didn't actually create too much of a sensation because it was about what a Democratic candidate for Governor would be expected to say before a partisan Democratic audience.

Volpe made no comment on Thompson's attack, but a blast from Republican State Chairman Allen promptly whistled at Thompson's head which caused Beacon Hill observers to sit up in attention.

Allen called Thompson a "wheeling and dealing politician" and the "No. 1 obstructionist in the Legislature" and declared that the Speaker "had better move out of his glass house before he starts throwing political brickbats."

The new GOP spokesman accused Thompson of systematically trying to sabotage Volpe's legislative proposals "with every possible tactic of obstruction, such as shunting measures aside, holding them up, proceeding without proper hearings, etc."

Allen wound up by saying the public "will have no difficulty in differentiating between the irresponsible political obstructionist Thompson and the businesslike, constructive Governor Volpe."

If Allen's broadside didn't break diplomatic relations between Volpe and Thompson, it certainly fractured them, and Thompson is not the type of politician who takes such an attack without smashing back at the first opportunity.

While Thompson's attack upon the first 100 days of the Volpe administration probably called for some reply, Beacon Hill observers suspect that Volpe would be in a stronger position if he did his own talking and threw his own bombs instead of letting Allen do it for him.

It's somewhat unusual for a Republican Governor to sit silently under searing Democratic criticism, while the GOP State chairman rolls up his sleeves and moves into the fray in the Governor's behalf.

Volpe and Thompson Are Both Vulnerable

To some extent Volpe and Thompson both are vulnerable to attacks and counter attacks. While Volpe's administration hasn't been as bad as Thompson pictured it, the cold fact is that the Governor didn't accomplish very much during his first 100 days in office.

Thompson, in turn, has refused to adopt the non-partisan attitude toward Volpe which Senate President Powers has taken. He asserts that he believes in the two-party system, not in non-partisan cooperation between Democratic leaders and a Republican Governor.

Whether that will strengthen or weaken him in his bid for the Democratic nomination for Governor is something that remains to be determined.

Also uncertain is the political mileage Volpe will be able to realize from the claim he eventually will make that a Democratic Legislature prevented him from doing many of the things he wanted to do. Thompson probably has greater influence with the members of the House of Representatives than any Speaker in years. He runs the sessions with an iron hand, and he can come pretty close to defeating anything he wants to defeat.

At the present time he is a

Defends Fluorides

Editor Newton Graphic
 Dear Sir:

It was distressing to read the letter from one of our neighbors printed in your newspaper last week concerning fluoridation of the water supply, which will be voted upon in next November's election in Newton. It was particularly upsetting because the facts it contained were misleading and could well cause the needless suffering of our children due to dental disease.

"No public health procedure for the control of disease has been so thoroughly tested by so many competent scientists and research organizations as the use of controlled water fluoridation," said Dr. Francis A. Arnold, Jr., Director of the National Institute of Dental Research. There can be no argument with the mass of scientific data which has proven to the satisfaction of the American Medical Association, the American Dental Association and public health departments throughout the nation that water fluoridation will prevent 60% to 70% of dental decay, and that it is the safest, most effective, and most economical method of accomplishing this.

Nor can there be an argument concerning the constitutional right of a community to provide for the dental health of its children in this manner, when fluoridation has been consistently upheld in higher courts which ruled that it does not infringe upon the constitutional or legal rights of the individual. In the four cases where appeals were made to it, the Supreme Court refused to review the decisions on the grounds that no substantial constitutional question was involved. The only freedom here questioned is that of our children to enjoy better dental health.

As a further plea for water fluoridation as the best method of fighting dental decay, a ten-year intensive dental health campaign in Askov, Minnesota, resulted in only moderate improvement in the children's teeth. The community has now decided to fluoridate its water supply—and at a cost of 57 times less than its previous program.

Because the natural fluoride in the water supply in New England is uncommonly low in comparison with other parts of the nation, and our tooth decay rate so appallingly high, it is particularly urgent that an informed electorate bend every effort to see that, what the Dental Times has called "American Dentistry's Major Health Achievement," fluoridation of the public water supply may bring its benefits to the children of Newton.

Peirce School kindergarten registration will be held today Thursday, April 27 from 9 to 11:30 a.m., and on Monday morning, May 1st, from 9 to 11:30 a.m.

It will be necessary for parents to bring birth and vaccination certificates, and records of immunization.

Further protection for the hoodlums, the burglars and the gangsters," one police chief exclaimed.

Because the police chiefs wield more influence with most legislators than do the civil liberties groups, the bills undoubtedly will be killed in the end. Right now however, the measures are the subject of one of the hottest rows on Beacon Hill.

"What difference if we ARE late? We can mingle with the departing throng and still get credit for attending!"

Thefts of 27 Bicycles Solved

Thefts of 27 bicycles since last October has been solved with the arrest of a 13-year-old West Newton boy who was turned over to the Youth Service Board at a juvenile session of Newton District Court. Police said the boy told them he used the stolen bikes for a time and then abandoned them.

Rawson Backs MTA Children's Fare Increase

Rep. George E. Rawson (R-Newton) declared today that if MTA trustees would make more proposals similar to the one abolishing five cents fare for children "and the General Court had the sense to adopt them, there would be substantial reductions in the MTA deficit."

The trustees estimated the bill would provide \$1 million more annually. The plan was in line with transportation policy in use elsewhere, Rawson said.

"The Committee on Metropolitan Affairs had given the bill an unfavorable report," Rep. Rawson said, "which was overturned by the House as the rules required that it be referred to Way and Means. That committee also reported it unfavorably."

"Last Wednesday Rep. Cramer of Chelsea moved rejection of the bill and a sharp debate followed. Cramer contended that \$1 million would make little difference to the MTA deficit."

The Newton representative stated that \$1 million is a lot of money, and that as he looked around the House he did not see anyone who had \$1 million; that if we could save \$1 million of the public's money we would better do so.

Rejection was defeated by a standing vote and under suspended rules, the bill was passed to be engrossed, and sent to the Senate.

STUDENT "LIBRARIANS FOR DAY"—Young Newton "Librarians for a Day" pose with regular staff of Free Library. Left to right, William Lipsett, Charles Grabeau, Ann Lansky, Jane Lillis, Carol Cary, Maria Lucia, Miss Ruth S. Fielden, of staff, Mary O'Donoghue, Sylvia Hall and Sue Rayburg. On steps, left to right, Miss Bertha L. Cain, assistant librarian; Librarian A. William Kunkel, Jerome T. Lewis, and Mrs. Dorothy Gower.

Young "Librarians For A Day" Learn From Behind The Scenes

One of the highlights of the observance of "National Library Week" in this city last week was the role played by nine local students who took over the operation of the Newton main library for one day.

Students taking part in the unique experiment included: Ann Lansky, Jane Lillis, Carol Cary, Maria Lucia, Mary O'Donoghue, Sylvia Hall, Sue Rayburg, William Lipsett and Charles Grabeau.

The busy "Librarians for a Day" examined all the procedures of the library from the time a new book arrives in the processing department until it is placed on a shelf for use by the public. They also helped answer reference questions and charged out books to borrowers.

William Lipsett as "Head Librarian" spent his time in the office of Librarian A. William Kunkel learning the facts about administration. He is a student at Day Junior High School. Jane Lillis and Ann Lansky, of Bigelow Junior High School, and Charles Grabeau, of Day Junior High School, worked in the book processing department under the guidance of Jerome Lewis, department head.

Miss Ruth Fielden and her staff in the adult services department, supervised the efforts of Sue Rayburg and Sylvia Hall of Day Junior High School, and Mary O'Donoghue, of Warren Junior High.

Carol Cary, of Weeks Junior High, and Maria Lucia, of Warren Junior High, worked at the circulation desk and telephone switchboard with Mrs. Dorothy Gower.

At the end of the busy day's activities, the young "Librarians for a Day" met in the trustees' room and discussed their experiences with Librarian Kunkel.

They were served coffee by Miss Bertha L. Cain, assistant librarian, Mrs. Seymour Geter, of the board of trustees, and Mrs. George L. Brewer, president of the board. Each student received a copy of the book "Behind the Scenes at the Library" as a memento of the occasion.

The most significant fact learned by the young people during the visit at the library

was summed up by Sylvia Hall who remarked, "I was most impressed by the spirit of cooperation, the way all the people on the staff help each other, and the patrons, to make the library work smoothly and be of greater service."

Board Rejects Plea For Office In Dwelling

The petition of Dr. Joseph B. Barron of 64 Beethoven Rd., Waban, for permission to establish a dentist's office in a dwelling at 711 Beacon St., Newton Centre, was denied by the Newton Zoning Board of Appeals by a vote of 3 to 2. This marked the third time Dr. Barron has been rebuffed in his efforts to obtain permission for the office.

Attends Seminar Held in Whitman

Dr. Reuben J. Margolin of 28 Halcyn Dr., Newton Centre, associate director and former counseling psychologist with the VA Hospital in Brockton, was among Northeastern Univ. faculty members attending the 5th annual South Shore Human Relations Workshop held in Whitman. The workshop was sponsored jointly by Northeastern and the National Conference of Christians and Jews.

Many Events To Point Up Fund Drive For School

The response to the \$100,000 drive for a new building for the All Newton Music School has been most gratifying to the committee in charge. To further promote the interest, the committee has scheduled a series of events to let the people of Newton and surrounding communities know more about the activities of the School and its need for increased building space and facilities.

Included in the schedule are three open music hour recitals by students of the School. These will be held at the present school building at 4 o'clock in the afternoon of May 5, May 26 and June 16. Parents, friends and all those interested in the School's work are invited.

On May 7th a faculty concert has been arranged to celebrate the school's fiftieth birthday. This affair will be sponsored by the All Newton Music School's Parents Association and will be held at the Newtonville Women's Club in Newtonville. Arrangements are under the direction of the Parents Association President, Mrs. Martin Berzin.

On Wednesday, May 24, at 8:00 P.M. the school will present its annual Spring Concert by the students. The concert will be held at the Newton Centre Women's Club, 1280 Centre Street, Newton Centre.

As a part of the promotional program and to illustrate the work of the students at the school, and in addition to celebration of its fiftieth year as a Newton institution, an exhibition of photographs are on display in the City of Newton's libraries.

The photographs are the work of Mrs. Harry Schwachman. Examples of Mrs. Shwachman's work are in the permanent study collection of the Museum of Modern Art in New York City, in the Denver Art Museum, and the Berkshire Art Museum, Pittsfield, and have been exhibited in group shows in Boston. The photographs show group classes for young children taught by Elialoi Dimmock, in a chamber music workshop for adults conducted this past season by Joseph Silverstein, Boston Symphony Orchestra soloist and winner of the Naumburg Award and Mrs. Anne Gombosi, Director of the School.

Plans for other events of a nature similar to the foregoing are under way and will shortly be announced.

Protest Plan-

(Continued from Page 1)

dated April 17 which carried the typewritten names of 10 members as endorsers of a statement in criticism of the Chamber's approval of the Norumbega project.

In its reply to the 10 members, the Board of Directors stated: "The Board sees no inconsistency between its endorsement of this project and its resolution urging that the City not increase the number of commercial areas of the City. The projected use of the Norumbega area — for office buildings, a motor hotel and apartments — falls within our concept of the City's long term needs."

Subsequently, the Auburndale Village Improvement Society protested the manner in which the hearing was conducted before the Aldermen, adding that the complaint was not against the Aldermen but against the spectators. The Society charged that people who came to the hall to register opposition found that all the seats on the ground floor had been filled by early arrivals, not from Newton.

The statement charged that a check of 159 cars parked outside City Hall showed that 82 were registered to Newton residents and 77 were registered outside of Newton.

"Newton citizens had to stand in the corridors, behind closed doors for a time while the petitioner presented his proposal to the Aldermen and to the 'packers' from outside Newton," the Auburndale statement charged.

A spokesman for the Society also charged that invitations signed by Peter Kanavos, president of the Newton Corp., invited businessmen to his home for an open house following the meeting at City Hall. The invitations were sent to businessmen and requested they arrive at City Hall at 6:30 p.m.

The Auburndale Society opposes the Norumbega plan. "This sort of high population density housing development will be the ruin of our suburbs," the Society stated. "If this trend continues there will be no open space for our children or ourselves. We visualize one large eastern suburb on city stretching from Boston to Philadelphia."

Mount Ida Spring Fashion Show Is Tonight at 8:30

Tonight at 8:30 o'clock Mount Ida seniors will take to the runway in their favorite event of the Spring season — the Mount Ida Fashion Show. They will be modelling their own spring wardrobes, chosen for school, sports, and Commencement social events, before fellow-students, alumnae, and guests of Mount Ida, in Alumnae Hall on the campus off Dedham street.

Fashion has been the theme of the hour at Mount Ida ever since the end of Spring vacation two weeks ago. The dignified walk down the runway, the smooth turn, the careful display of costume have been taught by Dean Dorothea S. Taylor who also will narrate the show. The Mount Ida fashion show features students who wear their own spring wardrobes without commercial sponsorship. The theme of this year's show is "April in Paris."

Among the models is Miss Josephine Cialdea, daughter of Giulio M. Cialdea of 100 Bellevue St., a graduate of Newton High School, and a senior in the medical technology course.

Pittsburgh — Fabricated metal products are made by more than 16,000 U. S. factories.

CONGRESSMAN GREETING NEWTONITES — Congressman Laurence Curtis poses happily in Washington, D. C., with a group of Newton young people representing three local churches. Those in charge were Rev. Arthur A. Rounder, Jr., second row far left; Mrs. Richard B. Salinger, second row, second from left; Mrs. Constance Newall, second row, far right, and Mr. Salinger, first row, far left.

Church Young People Have Happy Trip To Washington

A group of young people from three Newton churches recently enjoyed a visit to Washington, D. C., where they

were greeted by Congressman Laurence Curtis. They were taken on a tour of the city and shown many interesting and historical sights including visits to the governing bodies of the nation in action.

The group represented the Eliot Congregational Church, the Grace Episcopal Church and the Newton Methodist Church.

In charge of the trip were Rev. Arthur A. Rounder, Jr., pastor of the Eliot Congregational Church; Mr. and Mrs. Richard B. Salinger, and Mrs. Constance Newall.

Included in the group were: Jane Anderson, Nancy Anderson, Nancy Appleton, Fred Davis, Alice Diman, Margaret Diman, Michael Donaghy, William Donald, Faye Douglas, John Draper, Steven Fields, Richard Garon, Kenneth Gleason, Bruce Gregory, Ted Henry, Dana Hokanson, James Horn, John Humphrey, Mark Lothrop, Pamela Lovell, Daniel McAuliffe, Bruce Marquis, Sidney Marston, John Miller, Linda Morgan, Roger Newall, Susan Powers, Sandy Pratt, Wakeley Pruple, Betsey Rich, Phillip Ruputz, Jeanne Saindon, Victoria Seegitz, Barbara Swanton, Jon Taylor, Marion Theller, Linda Titus, and Don Vogelsang.

36 Williston Rd.; Arlene and Rhonda Lamont, 123 Rand Terrace; Nancy Roland, 115 Windermere Rd.; Peter Wade, 96 Hawthorne Ave.; Paul Winslow, 136 Woodland Rd.; Richard Wood, 16 Chaske Ave.

And also, Lincoln Yates, 43 King St.; Carol LeDuc, 101 Lexington St.; Dennis Smith, 15 Camden Rd., all of Auburn; Bonnie Burns, 61 Bowden St.; Warren Smith, 232 Cherry St.; and Bob Blake, of 76 Harding St., West Newton.

The big adventure began after school on Friday, April 14. The chartered bus stopped overnight at a church outside Philadelphia, and the party slept on the floor. The group arrived in Bricks on Saturday and on Sunday joined in church services at the all-Negro chapel.

Money for the trip was earned by washing cars, giving pizza suppers and doing other odd jobs. Last year 12 members of the Fellowship made a work vacation to the mountain people of Kentucky. They made the trip in two rented station wagons.

The party started the trek home Friday morning but decided to return via Washington, instead of Philadelphia. In Washington they let the bus driver sleep while they toured the Capital on foot.

They visited Congress and Rep. Laurence C. Curtis invited them to lunch in the House cafeteria. Then they held a seminar in his office on the workings of Democratic and communist philosophy.

The boys and girls sat cross-legged in Curtis' small office and heard him warn against such catch phrases as "peaceful co-existence" and the wealth of "funny ideas floating around." Then they took to the road and headed home. "Where will we go next year?" repeated Rev. Schneider. "We don't know yet, of course, but some of the people would like to go back to Bricks. Others would like to go to Kentucky again. Perhaps it isn't a good idea to go to the same place two years in a row.

"We began making our plans last winter and wrote to Bricks about Christmas time. We had heard about the place when we were in Kentucky. They wrote back to say they would be glad to have us, and that's how it was we went to Bricks."

Better Hurry For That Car Sticker

You don't need all the fingers on one hand to count how many days left to get that all-important sticker for your car... there are all too few for those who procrastinate.

The red sticker proving that the safety inspection of brakes, headlights and other equipment is in good working order, must be displayed before Monday. Then Registry of Motor Vehicles inspectors will be out in force to halt all sticker-less cars.

lands, was entered early Tuesday by a burglar who took \$152 from a wooden cabinet where it had been hidden.

Meanwhile, thefts from autos, a bicycle and breaks in a dwelling and a lumber yard in Newton over the weekend were under investigation by police.

An electric typewriter and an adding machine, each valued at \$400, were taken from the National Lumber Co., 15 Easy St., Newton Highlands, as well as 30 carving sets valued at \$20 each.

The home of Augustus P. Castoldi at 38 East Quinobquin Rd., Waban, was looted and stolen were two portable TV sets, two radios, a watch and \$180 in cash.

Motorists also reported thefts of a car radio, a set of tall lights, and two tires. A bicycle also was stolen.

The first clue to the teenage gang came in Newton last Thursday, and investigation showed that the series of house breaks was committed over a period of three months.

The pattern began to form when Mrs. Olinda Paselli of 11 Clearwater Rd., Newton Lower Falls, reported her home had been looted. Police said the thieves apparently had just fled when Mrs. Paselli arrived. This was the gang's only house break in Newton, police said. At least it was the only one they admitted.

Patrolmen George Chapelle and Edward Courvels were enroute to Mrs. Paselli's home when they spotted a car in which a youth was riding alone. Police stopped the car and questioned the youth, and while the car was searched a gun was found in the trunk. The youth, a resident of Marion, was taken to police headquarters for questioning.

Sgt. Richard Nugent took charge of the investigation which led to the arrest of two Belmont boys and a Brighton juvenile. One of the Belmont boys also was a juvenile. Police said the four admitted the breaks, 15 in all, and implicated five other youths who were arrested by Belmont and Arlington police.

Two of the teen agers were arraigned in Newton District court, entered pleas of innocent, and bail was fixed at \$2,000 each for a May 5 hearing. The other two boys were arraigned in juvenile session of the court.

In another development, Alfred H. Lewis, 33, a musician living in Boston's Back Bay, was held in \$5,000 bail in Newton District Court after he pleaded innocent to a charge of daytime burglary and theft of \$300 from the home of Eli Livingston at 50 Chestnut Hill Rd., Chestnut Hill.

Meanwhile, John Duffy of 56 Barnstable Rd., West Newton, reported to police that his home had been looted of a clock radio, wrist watch, bracelet and \$25 in cash sometime Friday night.

Heart Fund Gets \$31,125 in Newton

The Heart Fund campaign was enriched by \$31,125 in Newton during February, but additional gifts during the fiscal year will raise that figure considerably, according to an announcement by Charles M. Cutler.

Church Women's Fellowship Day To Be On May 5

Mrs. C. L. Southmayd, chairman of the May Fellowship Day to be held by the United Church Women of Newton on May 5, at the First Unitarian Society, West Newton, has announced that the Rev. James H. Burns will be the speaker at the breakfast to be held at 9:30 a. m.

Mrs. B. Alden Thresher and Mrs. J. Lawrence Oncley will discuss "The Churches: Free and Responsible." In preparation for the observance, church women are taking part in forums, discussion and study groups to acquaint themselves with the various aspects of this theme.

May Fellowship Day is an annual observance sponsored by United Church Women, a general department of the National Council of Churches. The United Church Women of Newton is one of the more than 2,200 local and state councils of United Church Women taking part in this year's observance.

"Our theme points up our responsibility not only as individuals but as Christians groups. The responsibility and the freedom of the churches are matters of nation-wide concern," said Mrs. John B. Fox, president of the Newton church women. "We hope through our study of this problem we will be able to develop a clearer understanding of the role of the churches in the community and nation."

Abandonment Of School 3rd Floors Urged

A request to discontinue the entire third floor at the Stearns and Horace Mann Schools was included in a series of recommendations submitted to the Newton School Committee Monday night on behalf of the PTA Building Committee of the two schools.

The recommendations, 10 in number, were discussed by members of the PTA group with Supt. of Schools Charles E. Brown and John E. Gillespie, director of Business Services, prior to the Monday meeting. In turn, Dr. Brown relayed the recommendations to the School Committee.

Other recommendations included installation of panic bars on exit doors, removal of contents of closets under stairways at Stearns School, and removal of gasoline and conversion of emergency generator to illuminating gas.

The School Committee also was asked to authorize installation of sprinklers in all stairs and corridors, and of smoke screen doors in both schools. Another recommendation proposed blocking all flues with fire resistant materials.

One suggestion dealt with removal of old gas lines, but Mr. Gillespie reported that the pipes had been sealed and no leakage was possible.

The School Committee was attended by Robert C. Wachler, of 58 Page Rd., Newtonville, member of the Building and Safety Committee of the Horace Mann PTA.

Shoe City Nine Swamps Newton High, 15 to 5

Newton's strong bid for early leadership in the Suburban League diamond race suffered a cruel setback last Friday when Brockton High belted Newton 15 to 5 at Eldon B. Keith Field, Brockton. Nick Outchunis connected with a grand slam homer and a double to drive in seven runs for Brockton's third consecutive league win. It was Newton's first defeat in league play and stopped a streak of six consecutive Newton victories.

Earlier last week Newton counted an 18 to 4 victory over Cambridge Latin and then watched Bob Hathaway hurl a one-hitter to post a 1 to 0 win over Rindge Tech.

Then a couple of days later Newton South High unleashed a show of power to defeat Rindge Tech 15 to 9 while pounding out 25 hits in a game played at Russell Field in Cambridge. It was South's first Suburban League victory.
